

CARMEN GAIN VICTORY

WOULD PUT DOWIE IN PRISON

PLAN TO ARREST PROPHET IF HE RETURNS.

CHICAGO, April 4.—It was decided today by Overseer Voliva of Zion City, that, in view of the announced return of John Alexander Dowie from Mexico, and his declared intention of making a fight against the action suspending him from office, that the present overseer shall be appointed receiver of the Church of Zion and of all the public property standing in the name of the church. The courts will probably be asked to name Voliva as receiver within the next few days.

It was also asserted by the officers of Zion City that if Dowie returns and commences legal action against the present officers of the church, or attempts to oust them, they will cause his arrest and prosecution on the charge of misuse of funds.

Today Voliva, acting under the power of attorney he holds from Dowie, filed in the office of the county recorder of Lake county an assignment to Deacon Alex Granger of all the annuities and bequests that have been made to Dowie and are still unpaid.

LUCK ENDS, SO BANKER SUICIDES

RICH RUSSIAN HANGS HIMSELF IN HOME.

ST. PETERSBURG, April 4.—The body of Fyodor I. Block, a banker, was discovered, in his residence today, where he had hung himself.

Block, a Russian, had been on a large scale of the American method of advertising. He was engaged principally in the sale of lottery bonds on the installment plan, his own fortune having been based on his luck in drawing a capital prize of \$100,000.

In every city and town in Russia his name was painted in large letters on the dead walls of buildings.

It is intimated that Block was heavily committed on the Bourse, and that the investigation into his death will develop insolvency.

TURKISH TERRITORY.
CONSTANTINOPLE, April 4.—The report of the Ottoman commission appointed to inquire into the Tabah dispute, contains that Tabah belongs to the Akabah district and therefore is Turkish territory. It is not anticipated that the dispute will prevent a settlement in accordance with the Anglo-Egyptian views.

FACTORY BURNED.
PONTIAC, Mich. April 4.—Fire today destroyed the buggy and wagon factory of H. D. Sweet & Company and seven residences occupying half a block. Loss \$120,000.

NITRATE INTERESTS.
SANTIAGO, Chile, April 4.—After long negotiations, which at times were critical, the nitrate interests have successfully combined for the control of the product.

DEWEY HEARD FROM.
VALETTA, Malta, April 4.—United States drydock Dewey and her crew, bound for the Philippines, passed here at noon today and reported all well on board.

EASTERN WEATHER.
CHICAGO, April 4.—Temperatures at 7 a. m.: Boston, 41; New York, 42; Philadelphia, 40; Washington, 42; Cincinnati, 54; Chicago, 60; St. Louis, 62; Minneapolis, 29.

WOMAN TRIES TO END LIFE WITH HATPIN

Passes Bogus Checks, Is Ar- rested, Then Seeks to Commit Suicide.

LOS ANGELES, April 4.—Mrs. J. Hermann, the young woman arrested in this city yesterday as she alighted from a southbound Southern Pacific train, on charges of passing worthless checks in Fresno, attempted to commit suicide shortly after being incarcerated yesterday. The police kept the matter quiet until late last night.

Shortly after being locked in her cell the woman stabbed herself several times in the wrist with a hatpin, and but for the early arrival of the police matron, who discovered the woman's wounds, she might have bled to death. Surgeons dressed her injuries and she was taken back to her cell.

PASSES BOGUS CHECKS.

It is now charged that the woman passed at least two worthless checks in this city recently. One for \$65 was cashed by the Boston Store in exchange for a \$30 suit which the woman purchased. The other, for \$50, was cashed by J. McGinnis, a ladies' tailor. Both were drawn on a Kansas City bank.

In all probability the woman will be turned over to the Fresno authorities to be prosecuted by them. If the prosecution there should fail, the charges against her in this city will likely be pushed. The woman's male companion disappeared at the time of her arrest.

WIFE OBJECTS TO LIFE WITH A POLICEMAN

Policeman J. T. Farrar, of Berkeley, began divorce proceedings against Cecil M. Farrar today charging her with cruelty. They have been married a couple of years and have one child about four months old. Farrar was one of the witnesses in the McNulty trial now going on. He claims that his life has been made miserable by his wife who, upon his acceptance of a position on the Berkeley police force, threatened to leave him.

He states that she has refused to cook his meals so often that he is unable to mention the times. She has also threatened to get his discharge from the police force by making charges against him of seeing other women home.

He says that she did attack a young woman in her place of business and pulled her hair, claiming that he had been too familiar with her.

On the occasion of a visit of his brother, Farrar says that she refused to get a meal for either of them, and that they had to cook it themselves. When he upbraided her for her conduct he says she threw a dishrag in his face.

Tiring of this continued ill-treatment, he has now begun an action looking to the severing of the matrimonial ties. He is represented by Attorney R. C. Staats.

DROPS DEAD AS HE SAYS MASS

CRAWFORDSVILLE, Ind., April 4.—While saying requiem mass at the funeral of one of his parishioners today, Rev. John Dempsy dropped dead in his pulpit.

BAR ASSOCIATION TO HOLD MEETING

The members of the Oakland Bar Association and also the entire bar of Alameda county are requested to meet at the court room of Department No. 1 on Friday next at noon, when resolutions passed by the bar association will be formally presented to the Superior Court in memorial of Judge Stephen G. Nye. The present indications are that the funeral of the late jurist will be held in this city about 1 o'clock Friday afternoon, and members of the bar association are particularly requested to attend. It has not yet been determined who will present the resolutions to the court, but it will probably be one of the old members of the bar.

WOMEN CRY "DEATH TO THEM!"

SEEK VENGEANCE FOR SUFFERING OF MINERS.

LENS, France, April 4.—Another living survivor of the mine disaster at Courrières March 10 was discovered this morning and brought out of the pit.

The finding of another miner alive after twenty-five days' entombment caused intense excitement. The man was found in pit four of the Sallau mines. He was in good condition.

According to his first statement, this man, Auguste Berton, suffered less than the preceding rescued men. He is thirty-two years old, and was born in the same place as Nemy, the leader of the thirteen men rescued on March 30.

ATTACKED BY WOMAN.

As the news spread through the region it caused extreme exasperation against the engineers who have been directing the salvage work. M. Leon, the state engineer, when he arrived at the pit, was surrounded by a crowd of people, who cursed and swore at him, one woman going so far as to strike him.

CAUGHT IN SPITE OF BEARD

MAN IS ARRESTED DESPITE HIS WHISKERS.

NEW YORK, April 4.—A scandal dating back to England's preparations for the Boer war was recalled to light today in the arraignment of George L. Jordan who disappeared in this city several years ago while buying horses for the use of the British army in the Boer war.

Jordan was arrested last night charged with forgery in the first degree, having been indicted in 1899 for the forgery of a promissory note for \$20,000. He escaped arrest and the police supposed he had left this country.

GROWS WHISKERS.

During the seven years of his disappearance Jordan has been living in New York City. He went into real estate business and prospered, it is said. He disguised himself by growing a full beard, changing his name to that of Mark Denny and living ostensibly as an American business man. The prisoner today admitted his identity as Jordan, and was sent to the Tombs in default of \$25,000 bail.

Prior to the alleged forgery he was a regularly accredited agent of the British Government. Of a dashing military bearing, and with good letters of introduction from England, he was a guest of several of New York's best clubs. He is sixty years old.

TO JOIN ATHLETES.

LONDON, April 4.—James E. Sullivan, secretary of the Amateur Athletic Union, who is to represent the United States at the Olympic games, which open at Athens, Greece, April 22, left London today to join the American athletes who are expected to arrive at Naples on the steamer Barbarossa about April 17th.

PUBLISHER IS DEAD.

KEOKUK, Iowa, April 4.—Charles A. Warwick, publisher of the Constitution Democrat, died today, aged 53 years.

MANY CONCESSIONS ARE MADE BY THE TRACTION COMPANY

W. H. ELLISON, president of the local Carmen's Union, and W. D. MAHON, president of Amalgamated Carmen's Unions. These gentlemen represented the carmen at the conference with the traction officials.

At ten minutes past three o'clock this morning, in Elite Hall at the northeast corner of Webster and Twelfth streets, with a cheer which could have been heard two blocks away, Division No. 192, of the Amalgamated Association of Street and Electric

Railway Employees of America, ratified an agreement with the Oakland Traction Consolidated, which had been recommended to them by the agreement committee of the union.

Not a member present dissented.

TEXT OF AGREEMENT BETWEEN CARMEN AND OAKLAND TRACTION CO.

The agreement between the Oakland Traction Consolidated and the carmen follows:

"To Motormen, Conductors and Gatekeepers of Key Route and Oakland Traction Consolidated. Effective from this date the following conditions relative to your employment:

"1. The present scale of wages for conductors, motormen and gatekeepers until January 1 or July 1, 1907.

"2. Committees of our own employees from the union organization known as Division 192, of the Amalgamated Association of Street Railway Employees of America, will be recognized in the future as they have been in the past in discussing grievances of employees. Any man in our employ shall have the right, without question, to present his grievance to the organization and a committee of his fellow workmen shall have the right to present the grievance to the superintendent and such committee will receive respectful hearing, and consideration will be given to the subject presented.

"In event such committee cannot reach a satisfactory solution of the question presented they shall have the right to appeal to the general manager. Should they still fail to reach a satisfactory result their grievance shall be presented to the board of directors. Any man who is suspended or disciplined for violation of rules, if an investigation is found not guilty, will be reinstated and paid for time so lost.

"3. Any member of the union whose duties as officer of such organization requires his absence from his usual duty will be excused from his regular duty for a period of not more than thirty days unless by mutual consent. At the end of this period he shall be reinstated in his former position, unless his conduct has been such as to forfeit his right to further employment.

SOME RIGHTS OF THE CARMEN.

"4. All members of the union may ride free at their own risk on the lines of the Oakland Traction Consolidated on proper showing of their badge to the conductor in charge of the car. Employees riding free, as aforesaid, not to occupy seats while passengers are standing.

"5. Any man in our service has the free right to become a member of any reputable organization, and such membership shall not in any way be considered a bar to his promotion or advancement.

"6. Demerit lists relative to use of registers will not be posted on public bulletin boards, but will be given privately.

"7. A day's run of from ten to eleven hours, according to schedule, to be completed within fifteen consecutive hours, except in case of unusual emergency. Straight runs to be completed within twelve hours, with one hour for meals, unless employees desire a shorter time.

"8. Penalty for oversleeps to be as at present.

"9. Regular motormen and conductors to have one day off in every ten if they desire it.

"10. Cars shall leave the car house in clean and proper condition for service, and it is not the intention to have car crews do the repair work, except unusual weather conditions or minor accidents on the road, which require the attention of car crews to put cars in operative condition or avoid blockades.

"11. Space will be provided on bulletin boards at each car house station for the exclusive use of union in posting notices of meetings or other business of union, it being understood that such notices shall always be of a proper character.

COMPANY TO PAY INSTRUCTORS.

"12. During such time as motormen and conductors are giving instruction to students they will be paid twenty-five cents per day extra, in addition to their regular pay.

"13. Suitable sanitary arrangements to be provided as promptly as possible on various lines, and opportunity afforded for their use.

"14. All men are privileged to purchase uniforms wherever they please in the open market, subject to the approval of the company as to style, color and finish.

"15. All general rules of the company will be as nearly as practicable uniform in character, and kept posted in car houses as long as they remain in force.

"OAKLAND TRACTION CONSOLIDATED."

SENSATION IN ALAMEDA CASE

Deputy Constable in League With Ministers Results in Discharge of Pros- pective Jurors.

ALAMEDA, April 4.—There was a startling sensation this morning in City Justice Tappan's Court, at the opening of the trial of John W. Rew, a cigar dealer on Park street, who is accused of selling pools on the races, contrary to ordinance.

It was brought out by Attorney A. F. St. Sure, counsel for defendant, that L. W. McGlauffin Jr., a member of the First Methodist Church and a deputy constable who summoned the venire, was biased, self-admittedly in favor of the prosecution, and had been engaged after a consultation among the ministers and moral reformers of this city.

When this amazing state of affairs was revealed by questions put to McGlauffin, who has been sworn in as a constable under George E. Clarke, for the express purpose in hand, Judge Tappan promptly granted a motion to discharge the panel on the ground of bias on the part of the summoning officer.

McGlauffin was appointed Thursday morning and from his own statement immediately proceeded to ransack the city in search of trial jurors who would favor a conviction.

When court opened Judge St. Sure stated that he wished to prove that the panel was secured by a biased officer, and that with such jurors it would be impossible for a man to obtain a fair trial.

At Attorney St. Sure's request young McGlauffin was then called to the stand. He was asked:

"Do you know Rev. P. C. MacFarlane?" "Yes, I do," was the reply.

"Are you a member of the First Methodist Church of this city?" "Yes."

At this point City Attorney Simpson objected to the question on the ground that it was irrelevant, and his objection was sustained, the question and answer being ordered stricken out. Judge St. Sure then stated that the local ministers had sent letters to the trustees.

Rev. P. C. MacFarlane and all the ministers of the city had asked early action in the gambling cases, and later wrote thanking the city officials for the action taken.

Judge St. Sure then continued his questioning.

St. Sure—How did you happen to be appointed a deputy constable?"

McGlauffin—Senator Simpson rang me up last Thursday morning before 8 o'clock and asked me if I would accept the position. I said I would.

St. Sure—Are you not interested with the ministers of this city in the so-called crusade?"

McGlauffin—Yes.

St. Sure—You summoned the jury with your mind prejudiced in the matter, did you not?"

McGlauffin—Yes.

Judge St. Sure then moved that the panel be discharged, because of the aforesaid bias.

Judge Tappan promptly granted the motion and the case was continued until April 10th.

'HANDS OFF' SEEMS HIS POLICY

ROOSEVELT WON'T INTERFERE AT PRESENT.

COLUMBUS, Ohio, April 4.—John H. Winder, president of the Ohio Operators' Association, gave out part of a letter he has received from President Roosevelt at Charlestown, W. Va., in which the President answers the request for a commission to be appointed by him to settle the miners' strike. The President said:

"To appoint a commission to meet with the miners and operators, as you request, would necessitate action on the part of Congress. As yet, I am not prepared to say what action I personally will or can take in the matter."

WASHINGTON, April 4.—It is stated at the White House that the President has made a reply to the telegram received from the coal operators, and that while the text will not be made public, there is authority for the statement that the President has decided not to interfere as long as conditions remain as they now are.

MODIFY DEMANDS.

SCRANTON, Pa., April 4.—Word from a reliable source was received here from New York that the anthracite miners, convinced of the unbending attitude of the operators, will tomorrow present a modified set of demands, calculated to impress the operators with the conciliatory attitude of the miners. Should these demands be rejected, the miners, it is said, will seek to have the trouble adjusted by the board of arbitrators.

FAST TRAIN LEAPS OFF TRACK

BAD ACCIDENT IS REPORTED ON N. & W. ROAD.

NORFOLK, Va., April 4.—A serious wreck occurred on the Norfolk & Western Railroad fifteen miles from Norfolk today.

The "Carroll Ball," a fast express, ran into an open switch at Juniper Siding. Seven doctors and a wrecking crew have been hurried from Norfolk.

It is not yet known whether any one was killed or the extent of the injuries sustained.

It is reported the train was consumed by fire.

REPORT FROM THE DEWEY.

WASHINGTON, April 4.—The Navy Department today received a cable message from the commander of the Potomac, the tug with the drydock Dewey, as follows:

"Tuesday, 4 p. m. N. latitude 36.5, longitude 114 45 E. The Potomac has been into Malta and has now sailed for Port Said."

TWELFTH AND HARRISON STS.

M'NULTY SOON TO KNOW FATE

CASE TO BE GIVEN TO THE JURY TOMORROW MORN- ING.

Tomorrow afternoon the fate of Lester C. McNulty, charged with having made an assault upon Dorothy Olsen of Berkeley, will be in the hands of the jury. Judge T. W. Harris had an understanding with Deputy District Attorney Everett Brown and Attorney A. L. Frick last evening, and it was then agreed that the arguments would conclude tomorrow morning at 11 o'clock. Judge Harris will then read the instructions and the case be submitted to the jury for consideration.

Deputy District Attorney Everett Brown consumed almost an entire day in making his opening argument and Frick in his reply took up all of yesterday and all of this morning, and closed at 2 o'clock this afternoon. Attorney Brown then began his closing talk, which, it is agreed, will be concluded by 11 o'clock tomorrow morning.

The courtroom has been crowded for days past, every available seat being taken, and standing room is at a premium in the main hall leading into the courtroom. Each side has gone exhaustively into the evidence picking from it such scraps of testimony as suits their theory of the case.

ACCUSED OF TAKING WATCH FROM FRIEND

The trial of George Cronin, a young man from Livermore, charged with stealing a watch from a man by the name of Percy Calvin, was begun this morning before Judge Henry Melvin and a jury.

It is alleged that while the two were drinking together, Cronin lifted a watch from the pocket of Calvin. District Attorney Allen is prosecuting the case, while Cronin is defended by Attorney L. S. Church and Clark & Clark. Cronin formerly lived near Livermore and but recently had gone to Livermore. He says that he only took Cronin's watch for safe keeping.

HOTSLER SPRAINS WRISTS IN FALL

Thomas Dolan, twenty-three years of age, and living at 1170 Webster street, met with a painful accident this morning, in which both his wrists were badly sprained. He is employed as a hostler at the stables of Kane & Daly and early this morning, in going down some steep stairs in the barn he fell on his wrists in such a manner as to sprain both of them. He was taken to the Receiving Hospital, where he was attended by Steward Harry Borchert.

SUMMONED BEFORE THE GRAND JURY

The Grand Jury has given a number of subpoenas into the hands of Sheriff Barnett to serve in view of the next meeting of that body Tuesday morning. County Clerk John P. Cook, District Attorney John J. Allen, R. Magill, Chief of Police John Conrad of Alameda, Justice of the Peace B. J. Tappan and David McDonald, a road overseer, have been served with notices so far to appear before the jury and tell what they know of a number of different matters.

RACES AT THE LAKESIDE RINK

The races tonight at the Lakeside rink will draw a large crowd, and will surely be very exciting. George Patterson of the Lakeside is training hard for this event and if he wins the championship will be open to all skaters for matches. He has never been defeated. The Lakeside is one of the popular rinks of Oakland. There is continuous music. This is one of the features of the rink.

CRUISER SAILS

PE-LADELPHIA, April 4.—The cruiser St. Louis built at the yards of the Neede & Levy Ship and Engine Building Company of this city, sailed today for that bulwark of ship building, Under the contract the St. Louis must reach a speed of twenty knots.

The government trial will be made later.

VALUE OF RAILWAYS.

WASHINGTON, April 4.—By unanimous vote today the National Association of Railway Commissioners adopted the resolution of B. H. Myer of Wisconsin, offered yesterday, declaring it to be the sense of the association that the Congress of the United States should authorize and direct the Interstate Commerce Commission or some other department of the Federal government to ascertain the inventory value of all railways in the United States, and to fix a valuation on the railway property of each State separately.

Further consideration of the report of the committee on railroad taxation, presented yesterday by Andrew F. Gates of Connecticut was postponed until the next convention.

OPERATORS WILL SIGN.

FORT SMITH, Ark., April 4.—Peter Stewart, a member for this district of the national board of the United Mine Workers, stated today that several operators who had decided to sign the 1905 scale would arrive in Fort Smith tomorrow, and that work in the mines controlled by these men would then be resumed. It is believed that if one company signs the others in this vicinity will follow suit, and that no mine in Sebastian county will be idle next week.

ASK FOR A CONFERENCE.

WHEELING, W. Va., April 4.—The management of the American Sheet and Tube Company, operating a number of mines in this State for its own use, has requested a conference with the miners' scale committee, indicating a desire to adjust all differences and resume work at the mine. The American company is a subsidiary organization of the United States Steel Corporation and it is understood this plan will be followed wherever the corporation's mines are affected.

SAID TO BE DEMENTED.

GRAND RAPIDS, Mich., April 4.—Martin Vanhoof, said to be demented, is being held charged with beating his wife to death in their home here today.

DAMAGED BY FIRE.

JACKSON, Miss., April 4.—The buildings on the State convict farm in Rankin county were partially destroyed by fire today. Loss \$75,000.

DEALS SEVERELY WITH MASHER

COURT SENDS MAN WHO AC- COSTED WOMAN TO JAIL FOR LIMIT.

Charles White, a seedy looking specimen of a "masher," was this morning sentenced to the limit by Police Judge Smith on charges of drunkenness and of disturbing the peace. He was given fifty days on the first charge and three months on the other. Judge Smith expressed his extreme regret that he could not inflict a heavier punishment.

It appears that Mrs. J. J. Minogue was waiting for her husband at the corner of Twelfth and Washington streets when she was accosted by White. She told him to mind his own business. He then asked her to go for a walk with him, and upon her refusal used coarse language. The husband appeared on the scene in time to cause the arrest of the fellow. He was taken into custody by Policeman Agern.

"You have committed a very grave offense," said Judge Smith in passing sentence, "and it is a matter of regret with me that I cannot punish you more severely than I am about to do. The fact that you were under the influence of liquor is no excuse."

PUGILISTIC EFFORTS COST HIM HIS LIBERTY

Charles Powers, a young man 26 years of age, while in his cups yesterday afternoon, decided that he was built of championship timber in the pugilistic line, and without notice or warning sallied into Thomas Kern at the corner of Twelfth and San Pablo avenues.

He struck Mr. Kern in the mouth but was unable to land any more blows, as his antagonist reciprocated by knocking him down twice. The police were then sent for and the ambitious young man was landed in the city prison where a charge of battery and drunkenness were placed against him.

He made no defense to the charge and stated to the court that he did not know what possessed him. He was sentenced to a fine of \$5 or three days' imprisonment on the charge of drunkenness and to \$30 or fifteen days on a charge of battery.

CLAIMS JOCKEY HAS HIS WATCH

Claiming that Jockey W. Dugan, who rides at Emeryville, has a watch that belongs to him, T. E. Jones went to the District Attorney's office this morning and secured a search warrant for the purpose of looking among the pilot's belongings.

Jones claims that the watch was stolen from him at Los Angeles by a man by the name of J. F. Mooney, who paid the watch to Dugan. Jones made his complaint to Deputy District Attorney Phil Walsh and was given the warrant as asked. He says the watch is worth \$50.

UNOS WIN FROM PIEDMONT TEAM

The team from the Uno rink of Berkeley last night defeated the Spalding team from the Piedmont rink of Oakland by a score of 3 to 2 in the most exciting game of roller polo ever witnessed around the bay.

The teams were evenly matched and both went into the match determined to win. The superior team work of the Unos and the individual work of Gage and Baker of that team were the deciding factors.

The Walton boys of the Spaldings played a splendid game and time and again they rushed the puck to their opponents' goal, only to have it blocked or thrown back.

ACCUSED OF HAVING ROBBERED A JAPANESE

The trial of Robert Wells, charged with having been one of four young thugs who put a pistol to the head of M. Ogata, a Japanese, near Alvarado and robbed him of \$50, was continued this morning. He took the stand in his own defense and denied that they had robbed any one. He said they had had some trouble with a Japanese and that they were rushing to his aid, and that they were guided by a large number of others, who took them prisoners and turned them over to officers.

HIS ROOMMATE AND \$13 ARE MISSING

Bernard Bengson, who rooms at 1557 Broadway, reported to Chief of Police Wilson this morning that a roommate by the name of "Chester" had left yesterday and took with him \$13 which he had abstracted from a valise. The police have been asked to locate Chester and the \$13. Both young men are employed as bakers.

CHARGED WITH THEFT

William Porter, a resident of Berkeley, accused of stealing a bicycle in this city, had his preliminary examination set for April 11 on a charge of grand larceny by Police Judge Samuels this morning.

RECOVER STOLEN GOODS.

The police have recovered from second-hand stores stolen tools and gas fixtures belonging to Hugh Terrell, residing at the corner of Sixteenth street and Shattuck avenue, and Charles P. Holstrom, residing at 4953 Sherman street.

SETTLEMENT EXPECTED.

GREENVILLE, Pa., April 4.—A settlement in the Mercer-Butler coal field is expected tonight.

CITY OFFICIAL IS ARRESTED

DR. ARCHIBALD LEAVES HORSE UNHITCHED AND FINDS TROUBLE.

Dr. R. A. Archibald, city veterinarian and milk inspector, yesterday afternoon suffered a great humiliation at the hands of Policeman Jack Seal. He had momentarily left the horse that he drives unhitched, with the result that the doctor was placed under arrest. He was not taken to the city prison, however, as he had the necessary wherewithal to give the officer bail money.

This morning the case came up before Police Judge Samuels, and as the doctor showed that there was no intent to violate the law he was dismissed and his bail exonerated.

BURGLAR'S VICTIM HAS CHANCE FOR LIFE

SAN JOSE, April 4.—George Douglas, the retired capitalist, who was shot by a burglar early yesterday morning in his residence on the Alameda, passed a fairly comfortable night, and this forenoon he is resting comparatively free from pain. His physician states that it is too soon to determine what the outcome will be, but as Douglas is a man of exceptional strength and health he has a fighting chance for his life.

His assailant, who was arrested a few hours after the crime had been committed, takes the affair quite lightly. There is no question that he was alone in the crime.

FOUND GUILTY OF CRUELTY TO HORSE

William Purcell was arrested last night on a charge of cruelty to animals, preferred by Louis Schaffer, formerly City Councilman.

According to the story of Mr. Schaffer he hired a horse to Purcell, which the latter drove to San Jose and back without removing the harness. As a result, the horse is in a precarious condition and may never be able to work.

He was found guilty of cruelty to animals by Police Judge Smith this morning and will come up for sentence on April 5.

NEW GRANT SCHOOL TO BE INSPECTED

The new Grant School has been completed by the contractors and will be ready for occupancy on April 16. The Board of Education has issued an invitation to the public to inspect the handsome new structure on Friday of this week. The school doors will be open from two o'clock until six o'clock for the reception of visitors.

A week later the school itself will be occupied by the school children. The building is pronounced a gem of modern architecture, filling every requirement of a school.

The spring vacation will be declared on April 8th. When the schools reconvene the Grant School will be opened to the students.

RESERVE TROOPS ARE CALLED OUT

BUDAPEST, April 4.—A royal decree was published today formally calling out the supplementary reserves of the 1904 contingent of Honved troops.

The extraordinary measure of summing to the colors the second class reserve men is necessitated by the failure of the Hungarian parliament to pass the recruiting bill.

TO GIVE LECTURE IN LAW COURSE

The Uchi Daid Club of Golden Gate will meet next Thursday afternoon, at 2 o'clock, at the home of Mrs. Cahill, 1012 Fifty-sixth street. Attorney-at-law Mrs. Emily Marcus will give the first lecture in the law course, subject, "Civil Law, Common Law and Statute Law."

recently made a remark that impressed me deeply. He said, "I am wrong in picking out things to do." That is a very common fallacy. Lots of people try to get next to the right thing, and do one right thing. I know of it to drink a cup of hot chocolate these rainy evenings when you feel exhausted. But be sure you go to Lehnhardt's and get it right. And his pure candies, too. "They cost no more, but they taste like more."

NEW YORK MARKET CONDITIONS

COAL STRIKE CONDITIONS HAVING A RETARDING EFFECT ON OPERATIONS.

NEW YORK, April 4.—Uncertainty regarding monetary conditions and the coal strike exerted a decidedly retarding effect on the Stock Exchange. Prospects of the coal crisis are very

much mixed. Conditions seem unfavorable for the miners, inasmuch as there is a large stock of coal on hand, and it is asserted that as a class they are already much better off than usual, and that trade conditions do not warrant a further advance in wages. The dispute, however, is still in a critical state, and while the probabilities favor some sort of compromise the outcome is still uncertain. Mr. Mitchell seemed anxious to avoid an open rupture; yet it was difficult to see how he could do so without a backdown—something which, as a matter of prestige, he could scarcely afford to do.

A strike at this time is especially unfortunate, because of its effect upon an over-sensitive and somewhat hysterical state of public opinion. The latter is considerably incensed at the abuses of both organized capital and organized labor, and it realizes that any concessions to the latter must result in an increased price for a commodity which is already selling at ab-

normally high figures. It is quite evident that a prolonged rupture between capital and labor at this time would accentuate the public demand for government interference—a policy from which, in the end, organized labor would suffer just as much as organized capital. With such momentous problems at issue it is not surprising that stock market operations should be in abeyance until the atmosphere in this respect becomes more clear.

The monetary situation has much improved. Temporary stringency was anticipated previous to April 1st, but the disturbances from this cause have been much less than was expected. Funds are still retained in the interior with greater tenacity than usual owing to continued activity in industrial and mercantile affairs. Local bank reserves continue too low, and the contraction in loans has not been radical enough to permit of any important reinforcement. The chief relief in the local situation has come from Europe, where in case of necessity it is known that we can obtain assistance.

Moderate amounts of gold have come this way, but rates usually obtained through extension or expansion of our credit in the foreign markets. Owing to the improved outlook of the Moroccan question foreign bankers are more inclined to give New York issues assistance if desired, and the only present hindrance to a further utilization of this source is the probability that Russia and France also will soon be large borrowers in the international markets. The Russian loan for \$20,000,000, which will be remembered, was postponed last winter because of the internal disturbances then existing. Fortunately, the Russian government has demonstrated its ability to temporarily at least, repress disorder.

Its financial necessities, however, have probably been increased rather than diminished by these events, and the Russian treasury cannot indefinitely postpone its loan. A partial issue of \$5,000,000 has already been made and other installments are likely to follow. Russia endeavored to establish financial connections in New York, but fortunately Americans do not take kindly to Russian issues, and the probability is that those who have already been large lenders to that government will be compelled to continue their assistance as a matter of self-interest and protection. The foreign demand for American securities shows a slight improvement, particularly from Dutch sources; but this demand is not sufficient to have any material influence upon values.

IS ENCOURAGING.

The immediate outlook of the market is encouraging. We have suffered considerable reaction and in view of present general business activity there is little chance for further depression, unless the coal situation turns out unfavorably. Somewhat better buying of stocks has been noticeable at times, and the liquidation by large speculators seems to have ended for the time being. On April 1st between \$50,000,000 and \$70,000,000 of dividends were distributed; a much larger amount than usual at this season owing to the active business done by the big industrial corporations. Temporarily, at least, this will have a beneficial effect. Further, we are now approaching the entrance of spring, when the market is generally inclined to be strong and pessimism at a minimum. Financial conditions are, therefore, quite favorable, for a moderate recovery in values. Later on much will depend upon the crop outlook, which, up to date, is satisfactory.

Toward midsummer we may expect the usual quiet, particularly as the summer exodus abroad promises to be much larger than usual. During the summer more or less political agit-

tion of a disturbing sort will be heard owing to preparations for Congressional elections. The spread of socialistic theories and the open threat of labor to enter the political arena naturally create a feeling of disquiet, coming at a time when public opinion has been overwrought and depressed by recent insurance disclosures. In the long run all of these exposures, discussions and political disturbances will be beneficial in a larger degree of public good and increased stability. This period of self-searching and transition, however, is likely to be one of more or less disquiet and is a matter which receives serious consideration in high financial circles. For the present, however, as already stated, the outlook is satisfactory and good securities can be bought with reasonable confidence on all pronounced declines, but profits should be taken upon the good rallies. For the next few days the controlling influence is likely to be the coal strike.

HENRY CLEWS.

INQUEST IS HELD IN ALAMEDA

ALAMEDA, April 4.—An inquest was held yesterday inquiring into the death of the late Frank Thomas Short, who was drowned last Friday in the Tidal Canal. The verdict reached was that the young man came to his death accidentally through asphyxiation by drowning.

Frank Clare Brandon was the principal witness, while Louis Gehrio also gave testimony. Both witnessed the fatality and did all in their power to save the young man, who was buried under the waters by the numerous eddies that abound in the canal.

MEMORIAL DAY COMMITTEE MEETS AT THE CITY HALL

Editor TRIBUNE:—The Memorial Day Committee of the Grand Army of the Republic is a proud big title, and it is a large committee, with a very good opinion of itself, notwithstanding the fact that its name is just a trifle deceptive, seeing that it is a mixture of very clever people, young and old, men and women, the majority of whom never fired anything more deadly than the cork of a pop gun. However, it is patriotic to a degree; it is all to the good, no matter about the nonsense of names.

It does a vast amount of work without receiving a cent for it. Nay more time and money are regarded lightly by these veterans of old wars and recent wars and the sons, daughters, wives and sweethearts of the gallant makers of history. The machinery of a celebration in which many thousands annually participate is somewhat complex, and yearly for some months prior to Decoration Day it is burnished, oiled and tested.

There are always a lot of hold-overs from previous committees, and these experienced ones know how; and they have numberless forms, precedents and ways, that generally find ready adoption, but the iconoclast is abroad, and he is found even in the conservative ranks of this band of patriots, and sometimes he raises a row, and no wonder, for the soldier is a fighter and his auxiliaries have the fighting blood in their veins.

On Saturday evening in the room of the Board of Education in the City Hall a meeting of this committee was held. It was more than harmonious for notwithstanding lively debates, and marked differences of opinion, the grim decorum of the average deliberative body was dispensed with, unpleasant remarks avoided, and the witty compliment and happy hit gave life to the session.

Serious work was done nevertheless, and it was as follows: The treasurer, Mrs. Cushing, read a report showing \$45 on hand and excellent financial management.

To swell the funds in the treasury sufficiently the five commanders of the Alameda county posts were given the task of financing our Decoration Day.

The program at the cemetery was placed in the hands of the following committee: Dr. Gilbert Shepherd, Captain Henry C. Garlock, and Mesdames Anshoff, Weiss and Eaton.

STOCKTON, April 4.—In pursuance with the expressed determination of the District Attorney's office to avoid display in the Le Doux murder case as far as possible, no public announcement will be made of the time of arraigning the accused. She will be brought quietly into court some day this week to plead to the indictment.

The warrant was read to the accused this morning by Sheriff Sibley. She heard it with the utmost nonchalance and gave no outward sign that she felt concerned over it.

PROPERTY SOLD.

The three-story building and the lot, 50x85 feet, on which it stands, situated on the southeast corner of Grove and Twenty-second streets, was sold today through the office of George W. Austin for the Enterprise Hall Association, I. O. O. F., to A. F. Baumgartner, a prominent wholesale coal dealer, who contemplates extensive improvements in the building.

S. P. TRAIN KILLS MAN

An unknown man, but who answers the description of Calvin Wright who roomed at 403 Seventh street, was instantly killed and horribly mangled by the 2:50 p. m. Southern Pacific local narrow gauge train at Twelfth and Webster streets this afternoon.

He was attempting to board the train and was thrown beneath the wheels.

LATER—The body has been identified as that of Lester Melvin, aged 21 years, residing at 836 Washington street.

BERKELEY, April 3.—The University community was shocked by the

announcement this morning that Victor Henderson, secretary of the Board of Regents, and one of the most forceful figures in the University administration, lies in a critical condition at the East Bay Sanitarium, in Oakland with physicians attending him for an ailment that is believed to be appendicitis.

Henderson has been absent from the University campus, and from his of-

for three days, but the news of his removal to a sanitarium has been carefully concealed, none save his intimates knowing of the malady that threatens his life. Dr. George Reinhardt is in almost constant attendance upon Mr. Henderson, having not alone the interest of a physician in the case, but that of an intimate friend.

CHICAGO BARBER IS ATTACKED BY FOUR MEN AND DIES IN FEW HOURS.

CHICAGO, April 4.—George Brown, a barber, 41 years old, was attacked by four men last night, at Thirty-eighth and Butler streets, and was beaten so severely that he died two hours later from the effects of his injuries. Bernard Comiskey, who is accused of being the leader of the quartet responsible for the man's death, together with James O'Shea, is under arrest and the police are searching for the other two men.

RESCUES HORSES, BUT IS BURNED

While making a heroic attempt to rescue three horses and a cow from a burning stable last night, P. Riley was caught beneath falling timbers and severely burned before he made good his escape. His head and hands were seriously scorched, the skin being blistered in many places. The fire originated in the stable at the rear of Owen Riley's home, 820 Thirty-first street. In the stable were four horses, valued at \$1000, a cow and four dozen chickens, besides four tons of hay and a ton of grain. When the blaze was discovered P. Riley, who is a son of the owner of the stable, rushed into the burning structure in an effort to save the livestock. Three horses were liberated, and young Riley was attempting to release the remaining horse when the roof of the barn gave way and came tumbling down. It was with difficulty that Riley escaped with his life. The horse and cow perished in the flames. The building was a total loss, together with the hay and grain stored in the stable.

WILL SETTLE WITH MRS. JOHN MARTIN

Mrs. John Martin arrived in Oakland today from Trinity in order to be in attendance at the trial of an insurance case she has in court. Mrs. Martin states that she had some trouble at her home in Trinity because water was allowed to flow on her property and flood her tunnels. Robert Malter, president of the Los Grange Hydraulic Gold Mining Company took up her complaint and sent Mr. Rloran, secretary of the company, to investigate the matter. Mr. Rloran stated that the water was not allowed to flow on Mrs. Martin's claim and that she will be paid for the damage done here in the past. Mrs. Martin is greatly pleased over the treatment she has received.

WIRELESS FROM DRYDOCK DEWEY

NEW YORK, April 4.—A cable dispatch to the Herald from Malta says: A message has been received by wireless from the drydock Dewey, which was sixty miles northwest of Malta, maintaining a speed of more than 100 miles a day. During the entire run from Gibraltar the weather has been fine and all is going smoothly. The officers in charge of the drydock expect to arrive at Port Said about April 15.

LIBRARIAN GREENE

MAKES HIS REPORT

The Board of Free Library Trustees held a meeting last night, and Librarian Greene gave the following report: To the Board of Trustees of the Oakland Free Library and Reading Rooms, Gentlemen: I herewith present my report for the month of March, 1906: Number of borrowers, March 3, 1906, 15,796; number of borrowers added, 217; number of borrowers withdrawn, 10; number of borrowers April 3, 1906, 15,894; money received from fines, \$78.95; money received from last books, \$1.85; money received from dues, \$2. Total, \$82.70. Number of volumes issued for home use, 21,123; fiction, 10,841, or 51.42 per cent; juvenile, 1858, or 8.84 per cent; history, 390, or 1.87 per cent; biography, 221, or 1.09 per cent; travel, 410, or 1.98 per cent; belles lettres, 730, or 3.47 per cent; science, 421, or 1.99 per cent; poetry, 181, or .89 per cent; music, 130, or .64 per cent; religion, 150, or .73 per cent; miscellaneous, 720, or 3.45 per cent; magazines, 1839, or 8.76 per cent. Issued at Alden, 322; total circulation, 21,447; persons assisted by the reference department, 2523; visitors to the children's room, 6419; number of volumes added by gift, 24; number of volumes added by binding, 24; total, 1122; discarded, 57.

During the month I have bought 97 books at a cost of \$77.60. I am glad to say that March, 1906, is not only a record March—1375 better than last March—but the largest monthly circulation the library has ever had by 1206. Since the purchases of the month have

been heavy and mostly in popular books, the increase is likely to continue. Alden reading room has received a large part of its deposit collection and it is hoped to send books to some of the other reading rooms during April. Orders are out for the whole number of books and \$687.10 worth have been received. The annual wild flower day of the school children in the children's room at first set for Saturday, March 31, had to be postponed on account of continued wet weather. It is now expected to hold it on April 21. Last year 127 varieties of flowers were shown and 5030 visitors came to see them. This year we hope largely to increase both these figures. As a result of the substitutes' examination, Mrs. Hill and Miss O'Connell were put on the active list. Mrs. Hill has begun work for us and Miss O'Connell is preparing for it, so that both will be available by May, when they will be needed. Howard Vose, messenger, having left the library, we have tried two boys this month. One of them, L. H. Bradford, is now at work. I recommend his continuance on probation another month. Respectfully submitted, CHARLES S. GREENE, Librarian.

ARRESTED AFTER SEVEN-YEAR SEARCH

NEW YORK, April 4.—After a search lasting seven years, George L. Jordan was arrested last night on a charge of forging a note for \$20,000. Jordan was indicted September 23, 1899. It was alleged that he signed the name of H. P. Benson to the note, which was discounted by J. C. Bennett & Co., brokers at 19 Wall street. They are the complainants in the case.

S.S.S. OF ALL TONICS

Everyone should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from breathing the impure air of closed rooms and overheated buildings; the heavy, rich foods of the Winter season, etc., and when this vital fluid is aroused and stirred to quicker action by the return of warmer weather, these waste matters and poisons are distributed through the circulation, to act depressingly and injuriously on the system. The blood being in this unnatural and impure condition is unable to furnish the body with the proper amount of nourishment and strength, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation.

The depleted system must have assistance; it needs a tonic and it is important that the proper one be selected. When the health is in this disordered condition it is, not safe to take unknown concoctions, sarsaparillas, etc., because they usually contain potash or other strong mineral ingredients which act unfavorably and often dangerously on the run-down, weakened system, at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. A great deal is being said these days about living close to nature, and it is more applicable to medicines, perhaps, than anything else. Nature has provided a remedy for all the ills of mankind, and medicines made from nature's vegetation act better in every way than do the strong mineral mixtures which are the products of the chemist's or apothecary's shop.

The greatest of all tonics is S. S. S. It is made entirely of the roots, herbs and barks of the forests and fields, selected for their purifying and health restoring qualities; and as it does not contain the slightest trace of mineral in any form it is especially adapted for a systemic remedy, one that is absolutely safe for young or old. S. S. S. acts directly on the blood, ridding it of any and all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is enabled to supply to the system the healthful, invigorating energy needed to pass this trying season of the year. Its action is the most prompt, pleasant and satisfactory of all tonics and blood purifiers, and those who are beginning to feel the need of a medicine to fortify the system against the unpleasant conditions that come with Spring, will do well to commence its use at once. It will not only tone up the system, but will remove any taint or humor that may be in the blood and thus prevent an outbreak of Eczema, Tetter, Salt Rheum or other rash or eruption of the skin. S. S. S. restores lost energy, relieves that all worn out, tired feeling, quiets the nerves, helps the appetite and imparts a relish for food, and in every way adds tone and vigor to the entire system, and prepares it for the depressing Summer months that are to follow.

In selecting your tonic for this year do not be led into believing that others are "just as good," but get **S. S. S., THE GREATEST OF ALL TONICS**, and one that for more than forty years has been recognized as such. It is Nature's tonic, absolutely pure and safe, and reliable in every way. S. S. S. is for sale at all first-class drug stores.

ADDITIONAL BERKELEY NEWS

FORESTRY SCHOOL STUDENTS WANT TO WORK

THREE YEARS' COURSE IS ARRANGED FOR AT UNIVERSITY OF CALIFORNIA.

BERKELEY, April 4.—President Wheeler of the University yesterday appointed a committee of professors in the agricultural college to make arrangements for a three years' course in forestry. This was done because of the strong demand for a school of forestry here on the coast in response to the popular demand for proper measures for the preservation of the State's forests. There are now about fifteen students in the University who intend to qualify as forestry experts, but who, under the old plan, would have had to go to some Eastern institution for an extra year of study. Now, however, a complete course will be given at the University of California and it is thought possible that the American Forestry Association may divert their proposed gift of a forestry school from Yale to this institution, because of the great advantage that any coast college has by being near the country's great forests. The committee appointed by President Wheeler yesterday consisted of Professors E. J. Wickson, chairman, W. H. Setchell, C. G. Hyde and J. N. LeConte.

HALF HOUR AT BERKELEY

PROGRAM WILL CONTAIN BOTH VOCAL AND INSTRUMENTAL MUSIC.

BERKELEY, April 4.—The regular Half Hour of Music given in the Greek Theater of the University will be given by Mrs. Rudolph Schaffner, soprano; Mrs. Marlan E. B. Robinson, contralto; Mr. Lowell Kenney, tenor; Miss Grace Freeman, violinist; Miss M. A. Lewis, cellist; Miss Grace Rollins, pianist, and Mr. Delaplane, organist; under the direction of Mrs. Louise Marthner ambbell.

The program will be as follows: Trio for violin, cello and piano, "Allegro, molto ed agitato," Mendelssohn. Miss Freeman, Miss Lewis and Miss Rollins, tenor solo, "Heart's Spring Time," Wickes. Mr. Kenney, "A Song of Thanksgiving," Alliston. Mrs. Robinson, violin solo, "Adagio," Ries. Miss Freeman, (a) "Ave Maria," Bach-Gounod; (b) "Fruhlingsthum," Beethoven. Mrs. Schaffner, with violin obligato by Miss Freeman; duet, "Still As the Night," Goetze, Mrs. Robinson and Mr. Kenney.

BLUE AND GOLD IN PRESS

JUNIOR BOOK WILL BE CONSIDERABLY SMALLER THIS YEAR, COSTING \$6800.

BERKELEY, April 4.—The Blue and Gold, the University annual which the junior class brings out, is to appear this year without a special assessment on the class above the picture fee of \$5. For the last four or five years the price of the book to the juniors has been anywhere from \$5 to \$10, but this year the class voted not to pay more than the original levy. In order to keep the price within bounds the editor has found it necessary to make the book smaller than usual and to have fewer half tones. By doing this he has saved about \$2100 and will bring out the book at a total cost of \$6800. The book is all ready for the binder, but the printers are waiting for engravings that are to be inserted and which have been made in the East. These are expected almost any day and the book is to appear on the campus, if all goes well, on April 15. Editor Gabbert says that all copy was in about a week ago and that most of the work on the book is now completed.

MEN DO NOT WANT TO TEACH SCHOOL

BERKELEY, April 4.—One hundred and thirty-six students of the graduate class of the University have made applications for teachers' certificates. Of these only eighteen are men, and as most of these desire high school positions, it seems that the high schools of the State will be soon dominated by women teachers. This year's class contains the smallest number of men seeking teachers' positions of any year so far.

HOT GASES BLOWN ON AUTO DRIVER

BERKELEY, April 4.—While stopping under the automobile of the Cherry Real Estate Company attempting to fix the exhaust this morning at 10 o'clock, B. Green, the driver, was burned by hot gases which the high wind blew from the burning gasoline into his face. No serious damage was done, however, except to the man's hair, which was taken to the machine shop.

CHIEF CONRAD IS SUBPOENAED

John Conrad, chief of police of Alameda, has been served with a subpoena by Deputy Sheriff Hamlin commanding him to appear before the grand jury April 10th, and it is expected that he will be asked to explain the charges against the Alameda Police Department and against him made recently by Justice R. B. Tappan and Rev. P. C. Macfarlane. It is understood that subpoenas have been served on them also, and that they will be asked to repeat their charges before the inquisitorial body.

CLAIMS WATER IN PINE CANYON

MARTINEZ, April 4.—Frank Gavin, a rancher in the interior of the county, filed with the County Recorder a lease for property at the foot of Mount Diablo and contracts for the purchase of large tracts of land in this region, and also filed notices of the appropriation of water in and around Pine canyon. He made the statement at the time that it was his intention, or the intention of those associated with him, to erect a dam in the creek and pipe water for the use of such

towns as Concord, Martinez, Port Costa, Crockett and Valona.

Gavin filed a lease of 824 acres in Pine canyon on property belonging to Newton Booth. Under the stipulations in the agreement being that he could hold the land for five years at an annual rental of \$500, or could, at the end of the first year, purchase the tract for \$25,000. Gavin also filed a contract with S. W. Levy, the owner of a 1500 acre tract in the same region, whereby he was given a twenty-year option on the property. Its purchase price being \$40,000. Gavin also filed notices appropriating in Pine canyon creek 14,000 miner's inches.

IMPROVEMENTS PLANNED FOR THE HARBOR

A Comprehensive System of Dock and Wharf Facilities for San Francisco and Oakland.

The committee in charge of the proposed plan for increasing the dockage facilities and improving the harbor of San Francisco, has been actively at work. Already \$7000 has been raised through subscriptions by corporations and property owners who are interested in the welfare of San Francisco. It is proposed to employ the best engineering talent in this country to make a plan for the harbor, such as Mr. Burnham made for the city. This plan will include the Oakland side of the bay as well as the San Francisco side; in fact, it will be a general study and plan of the whole harbor.

San Francisco has but nine miles of docks. New York City has four hundred miles of docks. San Francisco's supremacy must be a commercial supremacy, and therefore it is wise now to make plans to care for the tonnage of the future. San Francisco has fronted on an ocean covering eighty million square miles and bordered by five great seas. It touches shores which will produce in the future the world's greatest commerce. San Francisco must prepare herself to handle this traffic, to supply coal, oil and water; build, overhaul and repair ships better and cheaper than any other port on the Pacific.

Rather than attempt to do any patchwork in preparation for this great coming commerce, the committee has decided that it will be wise to employ the most competent engineers to make the best plan possible to this end. The whole plan may not be carried out at once; but even though it be done by piecemeal, each portion as it is completed will be a part of a system that will be as thorough and as modern as money and brains can make it.

The Honorable Charles H. Spear, in a recent address to the Merchants' Exchange, said:

"If San Francisco grows, which it is in duty bound to do, to be the great commercial port that is pictured for

her by the writers and thinking men of today, and the present method of handling freight after it has been discharged from the ship continues, and there is not a more rapid method of removing same from pier to warehouse, we will never be able to transact the great commercial business that is claimed to be ours by virtue of opening up trade with the Orient and the world at large."

A study of some of the methods pursued in the Old World cities will immediately awaken interest and show the necessity of expending money on San Francisco harbor. Liverpool has expended \$200,000,000 in improvements. Antwerp in the last fifteen years has expended \$40,000,000. Until that expenditure was made Antwerp amounted to very little commercially. She was simply a relic of the Hanseatic League. Today, since the expenditure of that money, she ranks as one of the first ports of the world. Hamburg has spent \$40,000,000 for the improvement of her docks. These improvements were started in 1897, and involved the construction of new docks, the improvement of the River Elbe to the North Sea, the deepening of old docks and the changing of docks and river craft to find room for sea-going vessels. Among the loading and unloading appliances are 134 traveling cranes and eighteen wall cranes, all electrically operated. Germany for many years past has secured the bulk of the commerce with Central and South America. When the Panama canal is completed the wolves of commerce will be turned loose on the seas that are closest to our doors, and the commerce which belongs naturally to the United States. California today should be doing twenty times its present business with South America. The way is being paved for this development and increase of business by the proposed plan of improvement along our harbor front.—San Francisco Real Estate Circular.

ENDORSE A SITE DISCUSS OAKLAND FOR FARM HARBOR

MERCHANTS' EXCHANGE BELIEVES WALNUT CREEK OFFER THE BEST.

The Merchants' Exchange last night passed resolutions requesting the State Commission to purchase the 340 acre tract of land in Contra Costa county at Walnut Creek for the site of the proposed University farm. It was the general opinion of the directors that as the site had been recommended by the views, its close proximity to the University gave it an advantage over any other that had been made. With this in mind the Exchange had the following set of resolutions drawn up which were unanimously adopted by the Board.

THE BEST OFFER.

"Whereas, Certain residents of Contra Costa county have offered to the State of California for an Experimental Farm a tract of land located near Walnut Creek, Contra Costa county.

"Whereas, Said land and location has been examined by an expert, selected by the State Commission, and pronounced suitable for the purpose and meeting all conditions required by the laws, and

"Whereas, The location is especially adapted to the purpose on account of its proximity to the State University and especially owing to the fact that an electric road will be built from Oakland to the Farm if the same be selected, and

"Whereas, The value of said site is \$82,500 and the citizens have raised a bonus of \$25,000, making the cost to the State only \$57,500, and

"Whereas, The location of the Experimental Farm as proposed will be a great benefit to Contra Costa county and Alameda county, therefore

"Resolved, By the Merchants' Exchange of Oakland that we endorse the generous offer of the site at Walnut Creek, and

"Resolved, That the State Commission is requested to accept the offer of R. M. Burgess of 340 acres including irrigation plant and water rights, as we believe it is the best offer which has been received and will be in all respects satisfactory to the people of the State of California."

A set of these resolutions was ordered forwarded to the State Commission.

SENATOR PERKINS AND CONGRESSMAN KNOWLAND WRITE ABOUT IT.

The following letter, jointly signed by Senator George C. Perkins and Congressman Joseph R. Knowland, was today received by the Oakland Chamber of Commerce and is in reply to letters forwarded by the Chamber of Commerce, relative to an unexpended balance in the appropriation of \$350,000 passed by Congress last year:

March 28, 1906.
MR. EDWIN STEARNS, Secretary Oakland Chamber of Commerce, Oakland, California—My Dear Stearns: We called upon General Mackenzie, Chief of Engineers of the War Department, yesterday to ascertain the status of the Oakland Harbor matter. Contracts have been let for completing a channel 300 feet wide and 25 feet deep from San Francisco bay to Fallon street, in accordance with Project No. 2, the contract price being \$181,000. In the river and harbor act of last year \$100,000 was immediately available, \$250,000 additional being authorized for additional contracts. General Mackenzie has agreed to recommend that that \$100,000 be placed in the Sundry Civil Appropriation Bill at the present session, the amount required in addition to the \$100,000 immediately available to complete the contract, the contractors having until December, 1907, to complete the work.

LOWER THAN EXPECTED.

This contract is much lower than expected, owing to the arrangements which the contractor evidently made for the deposit of the material. The completion of this contract will leave a balance of \$169,000 to the credit of Oakland harbor. There is no danger of this amount reverting back to the United States Treasury, some apprehension having been expressed in this regard. General Mackenzie, however, says that he does not feel that he can enter into any other contracts, under Project No. 2, without authorization from Congress, the last appropriation bill providing only for a channel 300 feet wide and 25 feet deep from San Francisco bay to Fallon street. There will be no river and harbor bill at this session and the question of the balance, and what we may ask for in addition, will be provided for in the river and harbor bill of next year.

When we return to California we can meet and go into the matter thoroughly. Yours very truly,
(Signed) GEORGE C. PERKINS.
JOSEPH R. KNOWLAND.

SAYS PROMISED WIFE TOOK COIN

Mrs. Martha Odell, who says she is a business woman with offices in San Francisco, was before Police Judge Samuels on a charge of having obtained money under false pretenses from John A. Horn, a farmer hailing from Nebraska.

According to Horn he answered an advertisement of Mrs. Odell, which stated she had \$10,000 in cash and was desirous of obtaining a husband who would care for her interests. When Horn arrived here he entrusted Mrs. Odell with \$300. He says the woman not only lured him but that he is not yet married to her.

In the meantime Mrs. Odell acknowledges that she has married a man by the name of Henderson and that there is not the slightest chance for Horn ever marrying her.

The case is still going on this afternoon.

GOVERNOR TO BE IN PARADE

ACCEPTS INVITATION OF MERCHANTS' EXCHANGE FOR THE FOURTH.

Oakland is to have a great Fourth of July celebration. While the Merchants' Exchange of this city has endeavored each year, for a number of years past, to make each succeeding celebration surpass the preceding one, this year's celebration, it is predicted, will outdo any former effort in this line.

To begin with the Exchange has gone to work earlier than on any former year and will thus have more time in which to perfect the organization of the various committees, and better complete preparations for the carrying to a satisfactory conclusion the celebration of the country's great natal day.

The meeting last week it was suggested that Governor Pardee and staff be invited to take part in the pageant and without delay a communication was sent him, and at the meeting of the Merchants' Exchange last night the following reply was read from him:

GOVERNOR'S LETTER.
"Mr. Wilbur Walker, 220 Central Bank Building, Oakland, Cal. My dear Sir: I am in receipt of your letter of March 28, and in reply thereto I beg to say that I shall be very glad to accept the invitation to be present, with members of my staff, and participate in the parade and the exercises on the National anniversary, July 4."

"GEORGE C. PARDEE."
The acceptance of the Governor has given every member enthusiasm to the end that a general canvassing is now being done with a view to the formation of the personnel of the various committees and it is expected that in the next few days the committees will be organized and into the work of perfecting the details of the big celebration.

ANNUAL ELECTION.
The annual election of the directors of the Exchange will take place next Tuesday night and following the election the board will organize by the election of the presiding officer and a vice-president of the Exchange. In years past, until it has now almost become a custom, the vice-president has been elevated to the highest office in the gift of the directors and it is expected that this year the committee following out this custom, Director Harry Williams, at present vice-president, will be elected president for the ensuing year. The office of vice-president is still open and the selection of a member for this post is as yet an open question. The matter will probably be threshed out during the coming week and the members who are anxious for the honor will in all probability announce their candidacy.

ANNUAL BANQUET.
It is probable that the Exchange will give its annual banquet as in years past in the near future. While this has not been definitely determined upon a committee consisting of A. J. Jones, George Arper, George Koffman, J. S. Wikson and L. H. Davidson were appointed by President Schuster as a committee to consider the matter and make a report as to the advisability of holding the banquet, and if in favor of it to recommend the place where it is to be held as well. Most of the members expressed themselves informally as favoring the holding of the banquet and it is believed that it is a foregone conclusion that it will be held two weeks after the election as in years past.

A Matter for Common Congratulation.

The public is to be congratulated that the differences between the carmen and the Oakland Traction Company have been adjusted to the satisfaction of both parties to the controversy. The amicable agreement reached proves the wisdom of the policy of conferring with a mutual desire to be fair and avoid extremities. When men come together in this frame of mind they find it comparatively easy to make mutual concessions and dove-tail interests which, while opposed at certain points, are inseparably bound together.

Happily a strike which threatened general industrial and business disturbance has been averted. This is a decided relief to the community and a tribute to the good sense of the leaders of the Carmen's Union and the officials of the Traction company. A stiff-necked, defiant and unyielding attitude on either side would have precipitated a conflict that would have quickly communicated itself to other lines of activity and resulted in a temporary paralysis at least of business, the effect of which would have been far reaching and disastrous to the general interests of the community.

The conduct of the carmen during the period of contention just ended was admirable and cannot be too highly commended. Their talk and behavior were above reproach. They continued quietly at work while the issue was being decided between their leaders and the company officials, indulging in no inflammatory language and refraining from all talk or action of a threatening character. The importation of strikebreakers, barricading car barns and laying in stocks of arms did not provoke them into doing or saying anything foolish. Under the circumstances their self control and well-ordered attention to their daily tasks deserve the highest praise.

The officials of the Traction company also deserve a good word. The recession from the announced decision to make no concession, and hold no conference is an evidence of wise second thought. It was an assertion of good judgment that has borne excellent fruits and which undoubtedly averted a calamity. The Traction officials are therefore to be congratulated both for the sake of the community and for the interests committed to their charge. Out of conference has come a better understanding and an entente cordiale which promises harmony in the future. In the end the company will be a gainer by the concessions it has made to its employees.

The railroads will make a mistake if they go down into South Carolina and join hands with the liquor interests to defeat Senator Tillman. Their opposition and such an alliance will only make Tillman more popular. Moreover, it will give him an added importance. Tillman is the type of man that is easily made a popular idol. He calls himself a "cornfield lawyer," and claims to represent the plain people—the "wool hat boys," he calls them. He is an honest, sincere demagogue, though narrow minded, prejudiced and rather shallow, and has a way of striking out in plain, everyday speech that catches the popular fancy. If the people get it into their heads that the unpopular interests are trying to punish him for hitting on the right side they will flock to him blindly and make a hero of him.

The prompt passage in the House of Needham's sweet wine bill is a good thing for California vinticulturists. It is also an evidence of Mr. Needham's diligence and influence in behalf of his constituents. While his district is the largest sweet wine producing district in the State, his bill will be a great aid to other sections of California. Senators Perkins and Flint will now take the bill up and urge its passage in the Senate with all the strength of their united influence. Senator Flint will take personal charge of the measure, but this is by understanding with Senator Perkins, who will do all in his power to promote its passage.

An Angry Supreme Court.

The recent lynching of a negro, named Johnson, in Chattanooga promises to give rise to some interesting developments going far to illustrate the tendency of the Federal courts to extend their jurisdiction. In the Neagle case the United States courts, took possession of a man who had committed homicide and who was charged with murder in the State courts and absolutely forbade his being brought to trial.

In the Johnson case it is intimated that the Supreme Court will endeavor to punish for contempt the sheriff of Hamilton county, in which Chattanooga is situated, and other officers who permitted the mob to lynch Johnson. It will be an unusual stretch of authority, and however wholesome it may be as checking the lynching habit, it is doubtful if it does not bring in its train consequences which will operate to greatly hamper the administration of justice in the future.

Johnson was tried in the State courts for rape, convicted and sentenced to be hanged. On the eve of execution his attorneys applied to the United States Circuit Court for a writ of habeas corpus, which was denied on the ground that the court had no jurisdiction. An appeal was immediately taken to the United States Supreme Court, which ordered a stay of execution till the judges could find time to look into the case. Whereupon a mob took the prisoner from the custody of the sheriff and hanged him.

Now the Supreme Court is chagrined because any inquiry they may institute will be merely a moot one concerning a criminal whose sentence of death has been irregularly carried out. It has made the judges indignant to find that their stay has proved ineffective. They may have had no jurisdiction in Johnson's case, but they threaten to take jurisdiction so far as regards his lynchings. They cannot try the lynchings for murder or any other infraction of the law, but they can cite them for contempt of court and commit them to jail without giving them the benefit of a jury trial.

It would appear that the application made to the Federal courts for a writ of habeas corpus was a bit of legal chicanery to prevent the execution of the decree of the State court. The refusal of the Circuit Court to issue a writ is prima facie evidence that there

was no merit in the application, hence the appeal from the Circuit Court's ruling lacks every appearance of good faith. One is justified under the circumstances in regarding it as an attempt to use the machinery of justice to thwart the ends which it was invented to serve.

Owens River Water Impure.

The scheme to bring water to Los Angeles from Owens river is now being criticized on an entirely new ground. It is alleged that the water is strongly alkaline and carries an undue proportion of sediment.

Aside from the obstacles in the way of the Owens river enterprise pointed out by engineers who know, that of cost, and of the deficiency in supply, it is now alleged that the water, more particularly after the winter freshets, is not such as to commend it for domestic purposes. The idea that the scheme will ultimately result in one to furnish water for irrigation about Los Angeles is held by a writer at Independence in a letter to a Los Angeles paper. He says:

"This alkali condition of the river and, in fact, of its tributary streams as well, is particularly apparent just now, after the heavy rains and snow of last week. The river is high, a dirty brown color, in appearance wholly unfit for any domestic use. A man would think twice before proceeding to bathe in so turbid a stream. The flats around Independence are white with alkali, while farther north they are black for the same cause.

"Dr. G. P. Doyle, a local practitioner, said today that analysis of river water, made under his direction, had shown it to carry considerable alkali in solution, so much as to unfit it for domestic uses. The doctor then went on to say that alkali in solution is quite a different thing from alkali in suspension. The latter will precipitate. The former will not, except as the water is evaporated, and the expedient of running it through a dirt ditch, in order that it may purify itself, according to the doctor, will not avail. The physician at Independence told me practically the same thing. On the other hand, I have talked with pioneer ranchers who claim to have drunk Owens river water for years with no ill effects. It seems to be a case of you pay your money and you take your choice.

"However, Dr. Doyle's view of the matter is by no means uncommon in Bishop, where the Los Angeles project has fewer friends than anywhere else in the valley. The water isn't fit to drink, they argue; hence it must be that Los Angeles plans to use it for irrigation purposes. Any other hypothesis is at once rejected as untenable."

Sedimentary and organic matter can be eliminated by means of settling basins and filtration, but alkali is not so easily gotten rid of. Judging from other streams partially torrential in character and draining a watershed containing alkaline deposits, the water of Owens river is most highly impregnated with alkali when it is clearest and freest from organic impurities—that is, when the stream is at its lowest stage. How to get rid of the unhealthy chemical solution presents a grave problem. Filtration is, of course, expensive, but it is efficacious in removing matter carried in suspension. It looks as if Los Angeles were up against a hard proposition in trying to obtain an adequate supply of pure water.

Chronic Indigestion, catarrh of stomach, halching of gases, stomach trouble of all kinds, no matter how severe or long standing the case,

Nau's Dyspepsia Cure

will make a complete cure. We mean a cure. Peppin, soda, and the many dyspepsia tablets may relieve the symptoms, but they do not cure the cause. We want the very worst cases, those that can hardly eat the blandest kind of food and are suffering with what they may think incurable stomach trouble.

"For the past six years I have been a great sufferer with catarrh of stomach, and no one will ever have any idea how I suffered. I was hungry and could not eat. I seemed relieved when I could starve myself. After continued perseverance by friends I was persuaded to try Nau's Dyspepsia Cure, and after taking eight bottles, I am happy to say I am cured. I hope this letter will encourage some of the many sufferers to try this wonderful remedy. Nau's Dyspepsia Cure."

IMPORTANT NOTICE
Every garment offered tomorrow at this sale is more or less soiled by dust. It will be necessary to wash most of them before wearing. We wish this fact distinctly understood before you attend this sale.

Tomorrow, a Remarkable Sale of Muslin Underwear and Infants' Dresses

A collection of some four or five hundred garments, consisting of Gowns, Skirts, Drawers, Corset Covers and Infants' Dresses, every one of which is soiled, more or less by dust.

Some became soiled in window displays, others were purchased from traveling salesmen, who, after showing them throughout the United States as samples, finished up their trips in California and disposed of their samples to us and a few were mused in our shelves.

Aside from the soils of dust (which water will easily remove) these garments are absolutely perfect. They are all:

Daintily made
Attractively trimmed
Delicately sheer

Perfectly finished
Intelligently patterned
Hygienically clean

Many of the designs are original, others are copied from elaborate French models, and a few are quite plain. The variety is, naturally, great.

We want every woman in Oakland to endeavor to attend this sale here tomorrow.

SALE STARTS AT 9:30 A. M. SHARP.

WOMEN

HEART AND HOME

SOCIETY

BASHFUL MEN, TAKE NOTICE! HERE ARE SOME HINTS!

By BEATRICE FAIRFAX

"He either fears his fate too much,
Or his deserts are small.
That dares not put it to the touch
To gain or lose it all."

Whose fault is it, the man's or the
girl's, when the former is afraid to
tell the latter that he loves her?

In my mail today I have had no less
than five letters from bashful swains
who were afraid to come to the point
and tell the girls of their heart that
they loved them.

"Faint heart ne'er won fair lady,"
young men, and the only thing to do
is *take* the plunge boldly.

It won't be as hard as you think, for
once the girls see that you are really
getting down to business they will
help you along.

In the first place, even if she cannot
return it, every woman feels honored
when a man offers her his love.

WOMEN SUFFER, TOO.

There is no use in feeling mortified
over unrequited love. Women suffer
from it as well as men.

If the girl is worth loving she will
suffer as keenly as you in having to
refuse you.

But there is no use in looking on the
dark side of things, and the chances
are that all five of my young friends
will be happy prospective benefactors
in no time.

The bashful man had better not try
leading up to the subject. The best
thing for him to do is seize the first
opportunity and then get right at the
heart of the question.

All he has to do is to let her know

that he loves her and find out if she
loves him.

That sounds like a very tremendous
undertaking, but it can be done in very
few words.

"I love you; do you love me," and
after that it will be easy sailing.

No doubt this seems a remarkable
way of settling the question, but he-
roic measures are necessary with the
bashful man.

DON'T HESITATE.

If he hesitates he will never get
started.

Nine times out of ten the girl is fully
aware of the state of his feelings, but
she can't go beyond a certain point
in encouraging him, and he expects
her to go much more than half way.

If he is going to do it at all he must
do it abruptly, otherwise his courage
will fall him.

Even the most bashful man can be
bold as a lion when talking over a
business proposition.

Why, then, should he quake and
tremble before a girl?

Take courage, gentlemen of the faint
heart, do your own wooing, no one
will do it for you, and don't keep the
girl waiting too long or she will turn
to some man who is not afraid to tell
her of his love.

Don't wait for an opportunity make
one.

If she should refuse you don't for-
swear love forever on that account.

Keep at it until you win the love of
some nice girl, and don't settle down
into that most forlorn of all things, an
old bachelor.

THE FOOLISH WOMAN'S COOK BOOK

Misery Sauce

1 set of feelings (parboiled).
1 lb. of envy.
1 lb. of egotism.
1 qt. of tears.
1 Teaspoonful being misunder-
stood.
1 pkg. selfishness.

Mix the feelings as fine as possible.
Have them so tender and sensitive that
a casual word or look can cut them to
the quick.

Stir in the envy thoroughly.

Then add the egotism, which should
be very strong, as much of the success
of the dish depends upon a woman
never thinking of anyone but herself.

The tears should be put in drop by
drop, so as to spread them over as
much time as possible, and the flav-
oring of misunderstanding should be
mixed in while things are hot.

Finally saturate the mixture thor-
oughly with selfishness and set away
in the mind to ferment.

This makes a bitter sauce, for which
many women seem to have an insatiable
craving, and which they like to pour
over everything in life.

Those who enjoy being unhap-
py should always keep this
in the house. It can be
applied like a salad dressing to any
kind of circumstances, and is served
quite as often over a good, kind hus-
band, beautiful children, a comfortable
home and a generous income as it is
over a drunkard, a crust of bread and
an attic.

In making this dish one caution is
necessary—it requires to be continu-
ally stirred, and the woman who lets
her attention be distracted from the
dish she is cooking up will find that
her troubles have settled at the bottom
and that things have clarified and lack
the deep, black color and puckery
taste that she likes.

Misery sauce will also evaporate if
exposed to air and sunshine. Hence the
necessity of keeping it well corked.

The especial value of this recipe lies
in the fact that any fairly industrious
woman who is handy with her imagin-
ation can concoct enough Misery
Sauce at a moment's notice to last her
family for a month.

A great many women have consider-
able skill in compounding this house-
hold confection, but for turning out the
real simon pure article in its full per-
fection, nobody equals a widow.

She is chef—a cordon bleu—that sel-
dom fails.

However, the recipe for making a
bum is so simple that even a woman
of most ordinary intelligence, or none
at all, can succeed if she follows these
rules.

Take a small male infant of the or-
dinary, common or garden variety.

To Make a Bum

1 doting mother.
Ditto grandmother and aunts.
2 shovelfuls spoiling.
1 shovelful indulgence.
Cigarettes to taste.

Dissolve whatever backbone it may
have by steeping it in adulation, and
coddling, and petting.

This, if conscientiously done, will
make it so soft and mushy that it will
be ready to run into any sort of a
mould. Drop in, one by one, the ideas
that mother was made to wait on her
darling boy, that teachers are tyrants,
and that one should not go to school
unless he felt like it, that it is outra-
geous for a poor boy to be expected to
work, that a boy must have pocket
money and be allowed to do as he
pleases no matter what sacrifices the
mother and girls make, and that the
boy who cannot keep a job is always
an unappreciated genius that the world
is down on.

Flavor this mixture with cigarettes.
Permit it to run with poolroom habi-
tues, amateur prizefighters and corner
saloon loafers, and it will mould itself
into the desired shape of a tin-horn
sport.

Harden it by leaving it out nights,
and garnish with the green of the last
dollar in the family.

The usual accompaniment of this
dish is tears and prayers of the mother
—a somewhat bitter drink, but one that
is seldom omitted.

HAVE YOU GOOD MANNERS AT HOME AS IN PUBLIC?

By BEATRICE FAIRFAX

The little every-day courtesies are
the things that mark the true lady or
gentleman.

The well-bred girl is just as refined
in the privacy of her own home as
when in society.

She does not keep one set of man-
ners for the home and another for
the public.

Many girls feel that they can dis-
pense with good manners in the home
circle, but I can assure them that if
they are rude and ill-bred at home it
is impossible for them to appear in a
good light when in public.

Their manners may have a thin
veneer of politeness, but it easily rubs
off and shows the base metal beneath.

The face and manner are reflections
of the heart, and if the latter is not
kindly the former cannot long appear
so.

The truth of the matter is that you
cannot afford to be anything but polite
to any one—man, woman or child.

You have no right to vent your ill-
humors on any one without just cause.

Nothing is more charming than a
gracious, kindly manner. A ready
smile makes many friends.

If you feel irritable when you get up
in the morning don't feel that you can
take it out on every one you meet.

You are the one who is cranky and

cross and ready to provoke a quarrel.
Either keep quiet or exercise a little
self-control and change your mood.

Try and exert yourself to be pleas-
ant and agreeable even if you don't
feel like it.

Don't be a damper on every plan
proposed; coax up a little enthusiasm.
We all have to be bored once in a
while, but we can't all afford to show
it.

You may not always feel like joining
in your friends' plans, but you would
feel badly if they left you out, wouldn't
you?

If you would be popular among your
friends you must pay for your popu-
larity. You must be bright and sweet-
tempered, and you must be kindly in
your manner to all.

You can't afford to have "moods."
Life may look dark and dreary and
uninteresting to you, but you can't ex-
pect others to enjoy hearing your dis-
contented opinions.

Forget yourself and think of others;
be courteous to every one.

You are the one who suffers most by
your lack of politeness, for it is bound
to leave a blot on your nature.

If you are growing careless and
slovenly in manner, brace up; have a
good reckoning with yourself, and see
if you can't improve matters.

MISS CHARLOTTE ELSEY AND CHARLES HEATLEY ARE TO WED TONIGHT

FAIRY-LIKE SETTING FOR THE CEREMONY

MISS CHARLOTTE ELSEY, WHO WILL BECOME THE BRIDE OF
CHARLES HEATLEY THIS EVENING AT A PRETTY HOME
WEDDING.

Half a hundred friends and relatives
have been bidden to attend the mar-
riage at half-past eight this evening
of Miss Charlotte Elsey and Charles
Heatley.

The pretty ceremony will take place
in the large bay window of the living
room, Rev. R. C. Brooks officiating.

The setting for the ceremony is a
fairly like tent of white wisteria, with
pillars of the white flowers interwoven
with knots of pink tulle, and each
spray of the beautiful white flower has
an accompaniment or suggestion of
pink, since the entire color scheme car-
ried out in every detail of the decora-
tion is pink and white. From either
side of the wedding bower a trellis ex-
tends woven of white wisteria, roses
and tulle, and in the living room arti-
stic cornices are formed with flowers
and baskets overflowing with roses
and fastened in place with knots and
streamers of pink tulle adding to the
exquisite effect in pink and white.

The hallway is in green woodwardia,
ferns, bamboo and palms decorating the
spacious entrance hall.

The dining-room is also in pink and
white, the carnations and pale colored
tulle being used in the pretty scheme,

while on the bride's table white roses
and the old-fashioned "heart" blos-
som have been selected for their pretty
significance.

The bride's gown is a gorgeous crea-
tion of white messaline satin, made
princess and beautifully embroidered.
The trimming on the gown is duchesse
lace, and a white tulle veil will cover
the gown to the folds of the long train.

Miss Elsey will carry a bouquet of lil-
ies of the valley.

The bridesmaids will be Miss Mabel
Reed and Miss Lillian Breiling, gowned
in pretty robes of pink messaline and
trimmed with rare lace in the same
shade of pink.

The little flower girl, Mildred Lyon,
a niece of the bride, will wear a dainty
white frock, and will strew rose leaves
in the pathway of the bride party.

Mr. and Mrs. Parker Lyon, the latter
Miss Elsey's sister, will be guests at
the wedding. Mrs. Lyon wearing an
exquisite gown of lavender silk.

Mrs. Elsey, mother of the bride, will
wear a gown of black lace over white
silk and trimmed with a touch of lav-
ender.

Fred T. Elsey, brother of the bride,
will give her into the groom's keeping.

The groom will be attended by Clar-
ence Reed.

Mr. Heatley and his bride will go
south for a honeymoon trip, and on
their return will make their home for
the present at the Athens.

AT HOME.

Mr. and Mrs. Horatio Stebbins were
"at home" today in their apartment
at the Balmoral, 1135 Masonic avenue.
Mr. and Mrs. Stebbins will receive each
Wednesday of this month.

HAS RETURNED.

Dr. A. E. Kelly has returned after a
pleasant trip to the southern part of
the State.

RECEPTION POSTPONED.

The reception to Dr. Frederick Wolfe,
which was to have been held this eve-
ning at the Sequoia Club, has been in-
definitely postponed on account of the
death of his mother.

AN UP-TO-DATE SONG OF THE SHIRT

An expert who not only inspires de-
signers to surpass themselves, but
keeps his finger on the pulse of the
shirtwaist, lingerie, blouse and matinee
industry generally, thus delivers him-
self:

"Paris says 'short sleeves'."

"Dotted Swiss is more than good."

"Hand embroidery and lace are
necessities."

The correct short sleeve is the pure
elbow length or the three-quarter. The
embroidery is either on the waist
proper or it is in the form of inserted
medallions, or other forms. For edg-
ings and insertions, German Valen-
ciennes is in general use. Baby Irish
is introduced into some of the hand-
some waists, and so are Cluny and
even torchon.

In materials there's sheer, service-
able lawn, together with the exquisite
batiste, handkerchief linen and Per-
sian lawn.

MODELS DESCRIBED.

A very fascinating blouse of dotted
Swiss shows a yoke of emplacement of
handkerchief linen, embroidered in the
Japanese style. The edgings are of
Valenciennes, and the cuff is draped.

The inevitable and charming pin
tucks play a conspicuous part in a
pretty Persian lawn blouse, which is
exquisitely embroidered. It also shows
the new draped cuff.

Very beautiful is a batiste affair with
a lovely embroidered yoke. It is tuck-
ed in clusters and there are three fas-
cinating little Valenciennes frills at the
edge of the sleeve. Mercerized batiste,
by the way, is to be had in colors to
harmonize with the blouse the suit is
worn with. One of these models shows
a yoke of baby Irish and three rows of
Valenciennes insertion and edge put on
in bolero effect.

The best of these blouses is that the
ornamentation is carried out in the
back, which is quite as important as
the front.

One elaboration with puffed sleeves
shows both cluny and torchon by
way of trimming.

An exquisite affair is of all-over
English embroidery on sacreest lawn.
It shows Cluny insertions. There's one
done in delicate outline, the rose pat-
tern being employed. The sleeve is
broad at the elbow, being gathered in
to the shallow cuff.

REAL SHIRT STYLES.

Of these there are two styles, both
being designed for real service with
coat suits.

The more masculine of the two is
very like a man's shirt. The back, the
sleeve top without fullness and the
plain box plait down the center front
are altogether mannish. This skirt of
strong white linen is especially liked
for morning and ordinary sporting
wear, such as golf and horseback rid-
ing. For park riding, of course, the
coat would cover it, but for the coun-
try in the summer the shirt would
serve.

Many prefer this shirt with the
French back. This more feminine shirt
shows a soft cuff.

Another shirtwaist suit is cut in prin-
cess fashion, the front panel extending
up to the very throat, while at sides
and back skirt lines reach only six
inches above the waist, forming a cor-
selet that is scalloped about the upper
edge.

The sleeves reach only to the elbow
and have a buttoned down box-plait
down the center. They are finished
by a narrow lawn ruche.

A little bolero jacket, reaching only
half way to the waist, made of the
same material, accompanies the dress,
making what is known as a "two-piece
suit."

STRIKE BREAKERS DISMISSED

THEY ARE NO LONGER IN THE EMPLOY OF THE TRACTION COMPANY.

The relations which have existed between the Oakland Traction Consolidated and the strike breakers have been such that several parts of the East, have been severed, and the men who were to take the places of the regular carmen, which, it was thought, would be vacated in the event of a strike being declared, are now at liberty to go where they please.

They traveled across the continent at the expense of the Oakland Traction Consolidated and fared even as do railroad magicians when they traverse the continent from one coast to the other. At the case shops in Emeryville they were provided with comparatively comfortable quarters and supplied with substantial food, but housing and fare were far from being as sumptuous as those they experienced when speeding from various parts of the East to take positions supposed to be awaiting them here.

They are now open to engagement from any other quarter, and there are none of them who are not in need of it at once, because few of them are otherwise than poorly supplied with ready cash.

DECISION IS AGAINST TREASURY DEPARTMENT

NEW YORK, April 4.—A decision which the precious stone dealers have been awaiting with some anxiety was reached yesterday by the Board of United States General Appraisers in the reconstructed ruby case. The board sustained a protest against the action of Collector Stranahan, who classified artificial rubies as manufactured articles of value at 20 per cent. Under the board's decision the rubies are classified for customs purposes with natural rubies and are dutiable at 10 per cent. It is supposed that the ruby case will affect other kinds of precious stones, including emeralds.

The dealers in natural rubies have argued that if the government should classify artificial rubies with the natural product the trade in the latter would suffer. Unscrupulous dealers, it was contended, would be enabled by such a classification to sell the product of the factory as natural.

General Appraiser Sharretts wrote the opinion, in which he said that reconstructed rubies are composed of the same chemical constituents as the natural stones—oxide of chromium and aluminum.

The Treasury Department will appeal to the courts from the decision of the board.

No man accomplishes much who is afflicted with the hurry habit.

Danger From the Plague.
There is grave danger from the plague of Coughs and Colds that is prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. George W. Wells, of Forest City, Me., writes: "It is a Godsend to people living in all climates where coughs and colds prevail, and it quickly cures them. It prevents Pneumonia, cures La Grippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds; 50c and \$1.00. Guaranteed by Osgood Bros' drug store, Twelfth and Washington streets and Seventh and Broadway. Trial bottle free.

More cases of sick headache, biliousness, constipation can be cured in less time, with less medicine, and for less money, by using Carter's Little Liver Pills than by any other means.

MRS. KANE DIES IN ALAMEDA

AGED WOMAN PASSES AWAY—WAS ONE OF THE PIONEER RESIDENTS.

ALAMEDA, April 4.—Mrs. Margaret Kane, widow of Michael Kane, passed away yesterday afternoon at her home, 752 Lincoln avenue. She was in her ninety-second year at the time of her passing, being one of California's pioneers. She came to this coast in 1850 from Maryland, of which State she was a native.

Her late husband passed away in 1899. He was prominently identified with the early history of this city, having large property interests here. He was engaged in mining.

The late Mrs. Kane resided in this city for twenty-two years. She is survived by two sons and three daughters, Frank Kane, Charles Kane, Miss Mary Kane, Mrs. E. G. Buckley and Mrs. R. W. Theobald.

ALAMEDA COUPLE GIVEN A SURPRISE

ALAMEDA, April 4.—A delightful party was tendered Mr. and Mrs. Joseph Viera the other evening by a number of their friends. After several hours of enjoyment at the Viera home, 524 Central avenue, the guests adjourned to the club rooms of the Bay Shore Club, where dancing was indulged in.

Among those who made up the jolly number were Mr. and Mrs. Viera, Mr. and Mrs. J. Sweeney, Mrs. Charles Powell, Misses Margaret Schneider, Mabel Williams, Stella Leone, Agnes Kelley, Margaret Kelley, Hazel Hinz, Elsie Elitz, Jessie Hughes, Ethel Hughes, Metella Apple, May Yates, Evelyn Brown, Winnie Smith, Myrtle Phelps, May Mulvaney, Belle Hogan, Della Wavle, Mildred Rodgers, Miss Kautwasser and Edith Palmer. ALAMEDA MAN NEARLY DROWNED

ALAMEDA, April 4.—Joseph W. Walker, division superintendent of the Santa Fe, had a narrow escape recently while engaged in supervising a job in the Kings river country. Mr. Walker resides at 2225 Clinton avenue in this city.

Walker was thrown from a trestle bridge into the swirling waters below and fortunately did not strike any of the floating timber when he struck the water. He was carried down stream for about a thousand yards, when he regained the shore.

RAH FOR FOURTH OF JULY!

COMMITTEE OUTLINES PROGRAM FOR CELEBRATION AT SAN LEANDRO.

SAN LEANDRO, April 4.—There will be a meeting tonight of the general committee for the Fourth of July celebration, at which a subcommittee, Messrs. Locke, Moore and Eber, will make their report on the general program.

The report will suggest that the program should begin with the national salute of twenty-one guns at sunrise; parade at 10 a. m. of the representatives from the fraternal orders of San Leandro, Alameda and the military from Oakland, for which the parade will be a rifle and drum corps is desired; floats, including those representing "Columbia," which the school children will be expected to provide, and of "California," which Estudillo Park of Native Sons is expected to furnish.

THE ROUTE.

The route of the parade suggested is from the plaza on Davis street to San Lorenzo avenue, to Juana avenue, to Hayward avenue, to Estudillo avenue, to Santa Clara, and countermarch to Hayward avenue.

LITERARY PROGRAM.

The literary program, it was suggested, should commence at 1:30 p. m., and be held at St. Joseph's Hall, as being nearer to other portions of the afternoon's program, the band to make things pleasant during the noon hour with music at the plaza. The literary program, it is expected, would contain introductory remarks, song "The Star Spangled Banner," oration, reading of Declaration of Independence, song, "America," and opening and closing prayer. At the same time as the literary program it is calculated that games would be proceeding on the San Lorenzo side of the Plaza in the street, the games to consist of hurdle and sack races, tags of war, etc., with ball game at 2:30.

IN THE EVENING.

In the evening the committee designed that there should be fireworks, and a grand ball in U. P. E. C. Hall, tickets, \$1.

PLEASING SHOW AT THE BELL

A combination of a pig, a planing mill and a human saw, to say nothing of the latest in telephones, announces himself at the Bell Theater this week in a "phone show" as Delphonie. The introduction is good, but what follows will insure Delphonie a week's success without doubt. He started in with good work and when he finished he wound up as an afterpiece with a few encores thrown in. The mimicry of this clever young man is excellent. The barnyard, the mechanical instruments in use everywhere, the electric car and "the pig" are his easy prey in the land of mimicry. Delphonie has received a well deserved greeting.

For graceful poses and difficult feats in toe posing Dora Taylor, Australian danseuse and toe dancer, glided upon the Bell stage and held the audience enraptured. Her every turn, her every picture of motion is most acceptably portrayed in conscientious and applaud commanding manner. As a feature she ascends a pyramid balancing upon her toes for seven steps, then descends, never for a moment losing her balance. Her dancing, illustrating every known dance, is graceful and she is a strong acquisition to the Bell program.

A decided novelty is introduced in the big bill in the first presentation of a like act in vaudeville on the Pacific Coast and is, as usual, accredited to the Bell management. Miss Stanton, the wonderful violinist and a medal winner in competition, appears for the first time in an electrical novelty in which the use of the violin. Her touch is exquisite, her rendition of difficult airs grand, her presence charming. The Bell might well bill Miss Stanton for a continuous engagement.

The Maxtells, in a wonderful, daring, marvelous bicycle balancing act, well deserve the term which has been applied to them "The Maxtells." Their feats are stirring, yet every turn is so carefully worked out with precision and success that they caught the house from the start.

Harry Springfield and his company of trained artists in a merry sketch, "The Handsome Stranger," close a very strong bill. The entire act is filled with fun, frolic and uproariously comic situations. It is a fun bit to watch Harry Springfield say "she don't." The pictures are exceptional and a very strong bill is the offering of Oakland's leading vaudeville house this week.

ANSWERS DEATH'S SUMMONS

MRS. O. B. LAWRENCE, RECENT RESIDENT OF HAYWARD, PASSES AWAY.

HAYWARD, April 4.—Mrs. O. B. Lawrence, a woman aged about fifty, who with her husband moved here recently and took up their home in one of Mr. Gibson's houses, died Monday, and the funeral was held today.

OF MUCH BENEFIT.

The purchase of the Hayward Hotel property by T. V. O'Brien of San Francisco seems to be about the best thing for the benefit of this town that has happened this season so far. Mr. O'Brien has now purchased block B in the Hampton Place tract, on the apex of the hill, the purchase containing about two acres, and will turn it into a park connected with the hotel under the same management. The park will afford a fine point of observation.

A NEW BABY.

To Mr. and Mrs. Harry Brand of Pasadena, at the home of Mrs. Brand's mother, Mrs. Peterman, Monday, a boy.

TO SERPENTINE IN GREEK THEATER

BERKELEY, April 4.—On Thursday evening April 19 a monster bonfire rally will be held by the students of the University in honor of the baseball track, rowing and debating teams, all of which will meet Stanford in intercollegiate contests shortly after that date. Speakers will dilate on the superiority of California over Stanford and the students will join in the famous serpentine around the fire. The freshmen will be required to gather wood for the fire and to keep it roaring during the procession.

WESTERN PIONEER DIES IN NEW YORK

NEW YORK, April 4.—Levi Spiegelberg, head of the firm of L. Spiegelberg & Sons, cotton converters, died suddenly at the Harmonic Club yesterday.

Mr. Spiegelberg was born in Westphalia, seventy-six years ago, and came here with his brother early in the forties. They had little money and decided to strike for it in New York. When Mr. Spiegelberg was 19 he made the trip overland with his brother and wound up in Santa Fe. The boys started a store, and when the gold rush began branched out in business as wholesale merchants. They built up an export and import business with Mexico and had branches in many cities. Mr. Spiegelberg was known to almost everyone who hit the trail in those days, and was a friend of many of the well known gold seekers and Indian fighters. He and his brother made a fortune in 1860, when Mr. Spiegelberg came to this city.

WEDS WITNESS AGAINST HER

During the case of The People vs. Martha E. O'Dell, charged with obtaining money under false pretenses, heard by Police Judge Samuels, a surprise was sprung on the prosecution, when it was announced by Attorney Mann, for the defense, that Mrs. O'Dell, the defendant, was married last Friday to W. W. Henderson, who was expected to be one of the strongest witnesses for the prosecution. Since Henderson is now the husband of the woman he cannot be called to the witness stand to testify against her.

TO REPRESENT NAVY.

NEWPORT, R. I., April 4.—It is announced today that Captain Charles Sperry, president of the naval war college at Coasters' Harbor in Narragansett Bay, will shortly be detached to act as United States Naval representative at the coming Hague conference. Captain Sperry has acted as president of the war college since 1902.

BOXING CARD IS ST. ONG ONE

The Reliance Club has announced the entire card for its boxing exhibition to be held next Tuesday, April 10, and to the initiated it looks like a very strong one. The six matches that are to make up the program are all even ones, with good boxers as the principals.

Jack Burk of Sacramento will meet Young McConnell, the hard-hitting Oakland boy, in the main event, and Chris Hampton vs. Jack Brock, Danny Lynch vs. Charlie Lavigne, Harry Sheridan vs. Kid Nevius, Loren Brown vs. Young Herrera, and Young Gault vs. H. Brown, make up the balance of the attractions.

After carefully scrutinizing the list of contests it is hard to say just which one will afford the most excitement, but one could feel reasonably safe in saying that if all the boxers are up to their standard as to condition the judges will have no easy matter in picking the winners.

Burk and McConnell can be depended upon to give the patrons all the action that can be crowded into a four-round engagement as they are both more than anxious to win this contest. McConnell is making his reappearance after a year of rest, he has been training for the past month in anticipation of a match, and should be in first class condition.

Burk is an athlete with no bad habits, and hardly needs any training to be ready for the hardest kind of a contest. For some unknown reason, Burk says he has never been able to get in good condition at Sacramento, but since coming down here he feels stronger and faster than he has ever felt in his life.

Burk is anxious to box Joe Thomas again for the championship of the coast, and at the same time to wipe out the only defeat in his record.

BIG LEAGUERS TO SHORTEN TRIPS

This probably will be the last spring in which major-league baseball teams will begin their training so close to mid-winter as they have for many years. There has been a marked disposition of late to shorten these spring trips, both in time and distance covered, and for several reasons. The experience of many clubs this year will go far toward producing a more radical change of policy than would otherwise be made.

From all over the south have come reports of bad weather and poor results in the matter of getting practice, although some of the teams have been in training for two and three weeks. The best-favored teams are those which went into Texas and Arizona, where they have been handicapped by rains and the cold "nothers" for which the state is famous. The Chicago Nationals, for whom were selected the most northerly training grounds of the lot, have been kept indoors by snow, but they have fared no worse than the White Stockings, who went as far south as they could get, only to be shut off from steady work by rainstorms.

NEW YORKERS' EXPERIENCE. The New York Nationals attempted to avoid extremes in either direction by choosing Memphis, and for the same reason the New York Highlanders went to Birmingham, Ala. Both went into bad weather and only recently polo-ground fans were thrown into a fit by the announcement that Christy Mathewson, on whose health rests the Giants' hope for another pennant as the result of a severe cold caught in Chicago, was on his way home. Location, distance, and expense have counted little this year in the matter of conditioning the players.

Before the present training season began, several club owners announced this would be their last year of extensive trips. The latest convert is Ned Hanlon, the new leader of the Cincinnati Reds, who, so far, have had the best look of the sixteen clubs.

TEAM OF BOYS WANTS BALL GAME

Editor TRIBUNE: A fast team of ball players have organized for 1903 and most of all of them are crack players. There are a few who played with the Physicks last year. Jenkins is an admirable pitcher and F. Davis is a catcher, not to be sneered at. This team is willing to play any team of ball players under 15 years of age in Oakland. School teams barred.

The line-up is as follows: Pitcher, Al Jenkins; catcher, F. Davis; first base, C. Alexander; second base, J. Doherty; shortstop, H. Nold; third base, F. O'Connell; in the field are O. Grimes, C. Davis and H. Prier.

Address all challenges to F. O'Connell, 1593 Broadway, Oakland, Cal.

Joe Corbett may break into the game again, if his relations with the Brooklyn club can be straightened out. He is now working every day in the Olympic Club gymnasium.

JACK O'BRIEN, A PLEASANT DREAMER

NEW YORK, April 4.—Jack O'Brien's affection of last week is a smile. The Philadelphia told how he believes he could whip Jeffries. O'Brien starts out by modestly admitting that he is a better boxer than Jeffries and also blazes in acquiescence when he says he is faster on his feet than the blemishmaker. He tells how he can dance in and out, bring Jeff in the eyes until he is blinded and then finish him off at his leisure.

This hath a gladsome sound and portends great glory for the coast. If Jacobus O'Brien ever gets into the ring with Jeffries and undertakes to make good on the "in and out" proposition.

Of course O'Brien could hit Jeffries and could swill his eye but whenever he gets in close enough to put the bump on the Californian's eye he is also within the arc of one of those haymakers of the aforesaid Jeffries.

It is a pleasant scheme of O'Brien's to dart hesitantly and butt down the curtains on the eyes of the champ, but if Mr. O'Brien ever undertakes it there will be a black-bordered letter going back to Ballymooly.

The sound of the universal wall will be heard over the hills of Tyrone. In stepping out of his bell-the-cat program will be well worth seeing even though Jacobus gets his nose in the tunning.

The whole tale makes a merry story for the O'Brien press agent, but the strike of this bell-the-cat program will be well worth seeing even though Jacobus gets his nose in the tunning.

OUTLAWS SEND OFFERS TO IBURG

The Oakland Club stands pat. Ham Iburg stands pat. What will be the ultimate outcome of the strike no one can tell. Ham has offers to join the outlaws, and for his being a married man would leave the country.

Upon the urgent solicitation of his wife, he called upon President Bert to arbitrate the strike. President Bert sent a letter to the Oakland Club as requested, and received a communication in reply to the effect that the management stood pat. It stated that it had sent Iburg its best terms, and could do nothing further for him.

The Oakland Club was incensed over the fact that Iburg failed to report when ordered to do so. Iburg had forgotten his contract and gone to work the Oakland Club might have boosted his salary a bit. At least this is the intimation contained in the letter from the club to President Bert.

YACHT FROM CANADA IN RACES

CHICAGO, April 4.—All doubts as to the entry of a Canadian boat in the next Lipton cup races were removed yesterday, when E. S. Balcom of the Columbia Yacht Club returned from Hamilton, Ont., with a signed contract from J. H. Pearson, president of the Hamilton Yacht Club, to allow the entry of a Canadian boat in the Lipton cup races.

Intercollegiate Championship at Stake.

The final game of the great intercollegiate baseball series between the Phoenix team of St. Mary's College and the Santa Clara College nine is to take place tomorrow afternoon at Idora Park, beginning at 2.30 p. m. Both teams are determined to win this concluding contest, each having proved victorious in one game of the two already played, and there is not a doubt but that the struggle will be one of the most bitterly fought ever witnessed here.

Both aggregations have been practicing daily, and are said to be in fine condition for the crucial game. Feeney, who was too ill to play in the last game, which was held at the Presidio grounds in San Francisco, has entirely recovered, and will be back at his position, where he is regarded as a tower of strength to the team.

UMPIRE DISPUTE. Brother Joseph, manager for St. Mary's, has returned from San Jose, where he went to settle the dispute as to who should umpire this critical contest. The Santa Clara people objected to Ferrine, who umpired both previous games in a manner that was apparently satisfactory, claiming that he showed favor to the St. Mary's players, and Brother Joseph, after a discussion with the manager of the Santa Clara team, finally persuaded the latter to leave the selection of the umpire to Manager Jack Gleason, of the San Francisco baseball team.

Gleason named the well-known indicator hanadler, Jim McDonald, of the Pacific Coast League staff, and he will officiate in tomorrow's game.

SCHOFIELD TO PLAY. The dispute as to whether Schofield, St. Mary's first baseman, who was signed by the San Francisco team, should be allowed to play in the game for the Phoenix team, has been settled by an agreement that if Walters, the Santa Clara, who has been signed by Mike Fisher, plays for Santa Clara Schofield shall be permitted to do the same for the local boys. The St. Mary's supporters declare that it is not fair to allow the Santa Clara man to play and shut out the local boy Santa Clara was finally brought to see the justice of this.

Both teams are expected to have a band present and the rooting doubtless will be a distinct feature of the occasion. The line-up, with the exception of Feeney's return to the game, will be practically the same as in the previous contests. McGregor will do this twirling for St. Mary's and his fellows are basing their hopes on his well-known ability.

As to whether Walters, who twirled in the last game for Santa Clara, is to be in the box again, depends, of course, on whether or not Schofield is allowed to play first base for the locals. It is said both will be in the game.

BOXING BOUTS AT RICHMOND TONIGHT

Richmond Maple Hall Club is to give a boxing program at Point Richmond tonight, and there are to be two main events. A positive cure for rheumatism, Burns, Cuts, Sprains, Contracted Muscles, etc. T. PEZET TAKES BILLIARD MATCH

In the tournament at the Oakland Billiard Parlors last night's game between Pezet and Cushing was won by Pezet.

Both men were out of form and it took eighty-one innings to decide the contest. Cushing led until the sixty-ninth, when Pezet regained his nerve and slowly forged ahead.

Scores: Pezet, 109, average 1.18-31; high run, 10. Cushing, 82; average, 1.11-8-4, high run, 9. Referee, Cross. Tonight's game is to be between Cross (115) and Jones (100). This game should be hard fought and very interesting.

NOT A SINGLE FAVORITE LANDS

There was little doing for the wise ones at Emeryville yesterday. Every favorite was toppled over, and after the sixth race had been run, nearly every bookmaker had a materially increased bank roll. It is safe to say that the talent dropped \$75,000 on the day's play. The two books operated by George Rose won \$8500 on the day. Of this amount the book presided over by Rose won \$7000, which is one of the biggest individual winnings of the present season.

A very miscellaneous collection faced the barrier in the second race. Suburban Queen was backed into favoritism over Batella J., but neither one figured in the contest. Wintaria led to the stretch, where Flo Manola and Parting Jennie took command, the latter winning by the best part of a length. Parting Jennie went to the post at 9 to 1. Alonso was played to win the third race with great confidence, but Edin King finished with a rush and won going away. James A. Murray created some excitement by leading into the stretch by several lengths, but he stopped badly in the final furlong. It was Red Light's turn to run up to her best form, and she ran away from the field opposed to her in the fourth race. Phalanx had to be hard ridden to beat Buchanan for the place.

Expendit, ninth at the half-mile pole, proved the winner of the fifth race, outgaming his field through the stretch. The King Ban Handicap was the only race with any pretention to class. Don Domo ruled favorite over Lacene, but Albert Fir, the extreme outsider, won the race by a head from Toupee, who got off rather badly, but who finished very strong. Don Domo led into the stretch by almost three lengths, but he backed up badly the last sixteenth and interfered with Lacene.

NOLAN OFFERS TO BACK KELLY

NEW ORLEANS, April 4.—Eddie Kelly, the Buffalo newsboy who was battling Nelson's sparring partner, looks well in the Nolan book. Billy said last night that he knew Kelly could drive up to the front door with the goods.

"I'll tell you how well I think of him," said the brains of the Nelson-Nolan trust. "I'll bet a thousand dollars that he can beat any boy in the country at 132 pounds. And that goes for all."

It is to be hoped Harry Pollok sees this way Harry will tear through the subway to get at Nolan and that thousand for his little playmate, Abe Attell, may get the Belmont wagon arrested for fast driving. Yes?

WIZARDS WANT BASEBALL GAME

The Wizards have organized for the season of 1903, and would like to play games on Sundays, with any team averaging fifteen years of age or under.

The line-up is as follows: Sapiro, c.; Leighorn, p.; Mendelsohn, 1st b.; Ford, 2d b.; Hughson, 3d b.; Cohen, 3d b.; Silverstein, l. b.; Bode, c.; Mockloutz, r. f.; J. Mendelsohn, mascot. Address all challenges to A. Hughson, 510 Sixth street, Oakland.

HYLAND SIGNS WITH YOUNG CORBETT

SALT LAKE, Utah, April 4.—Final arrangements for a twenty-round bout between Young Corbett of Denver and "Fighting Dick" Hyland of San Francisco were made last night when both men signed articles with the Palace Athletic Club of this city. The fight is to take place on April 24, the men weighing 133 pounds at 6 o'clock in the evening of that date.

TEAMS ROLL SOME HIGH SCORES

A large gathering was present last night at the Oakland bowling alleys to witness the scheduled game between the Fabsts and Just Us teams.

The Fabsts bowled in good form, easily defeating the Just Us in three straight games, in one of which the Oakland alley boys ran up a total of 1033.

The Piedmonts No. 2 were defeated in three straight games by the Syndicates last evening, both teams being on their home alleys. The Syndicate Scores:

PHOENIX GIVE THE SEALS A SCARE

St. Mary's Phoenix team came within an ace of leading a victory from the Seals of the Pacific Coast League yesterday, sending in two runs toward the close of the contest and thus nearly tying the score, but the professionals then took a brace and there was nothing more in sight for the collegians.

SOUTHERNERS BEATEN BY U. C.

The All-Southern California track team, which defeated Stanford last Friday, went down to defeat yesterday afternoon at the Berkeley oval before the athletes of the University of California. The meet took place before a good-sized bleacher crowd of students, and was interesting throughout, despite the fact that the score, 72 to 50 was one-sided.

The California freshman, Channing Hall, was the bright particular star of the day. He won the high jump, 5 feet 10 3/4 inches, and then went after a record setting in his best jump was 6 feet 7 3/4 inches, which is a Pacific Coast mark, and will be so recognized by the authorities. The Pacific Coast record for a five-man-relay team was also lowered to 3.22.

THE SUMMARY. Run, 2 miles.—De Remer, U. C. won; Roth, U. C. second. Hymrod, Pomona, third. Time, 16:24 2-5. Run, 1 mile.—Hamrod, Pomona, won; De Mamel, U. C. second. Rhodes, U. C. third. SHORT JABS AT SPORTS.

Let those who rail at the brutality of the prize ring sit up and notice that in the McGovern-Nelson fight neither man received a scratch.

Wisconsin reports lively bidding for star athletes. We assume that a slightly tainted have been marked down to a reasonable figure.

Marvin Hart has broken the rules of training, been fired according to schedule, secured forgiveness and is now in a position to repeat.

St. Louis wants the next bowling convention to be held in St. Louis, and then back to beer seems a fair program.

A man at Gymnasium, Ind. has been converted and is paying back money he won on a fixed ball game as fast as he can find the victims. When the news is thoroughly circulated he may be surprised to find how many there are.

Hare and Hound Race Also Planned.

The Century Athletic Club held its last regular monthly meeting at its new club room. The club has leased Castle Hall, 1212 Twenty-third avenue, and will meet there till the new club house, which the members have decided to build, is ready. Plans for the new building are now being drawn by S. H. Thomas.

Next Saturday evening, April 7th, the club has arranged to entertain its lady friends. Invitations are now out and a large number of visitors are expected to take this opportunity to inspect the new club rooms. F. O. Hassard is chairman of the entertainment committee and has arranged for a short but interesting program.

HARE AND HOUND RACE. The committee of arrangements for the big hare and hound cross country race has decided to start the race at Fruitvale avenue, Hopkins street, Upper Fruitvale, at 10 o'clock sharp, on the morning of April 19th. This race is to be held under the auspices of the Pacific Athletic Association.

The Century Club will give a number of individual and team prizes, among them being three handsome cups and several medals. Each man who finishes will get a Century Club cross country bar.

Already a number of names have been received. This race is open to all amateurs. An entrance fee of fifty cents is to be charged. For further particulars address H. V. Hauser, secretary P. A. A., box 184 Fruitvale, Cal.

The Century Club is entered in the contest across the bay and hopes to win a pinola.

Piedmont Baths. First-class Turkish and Hammam Baths. Finest service on the Coast. Experienced attendants. Also swimming tank for ladies and gentlemen. Take Piedmont car to Twenty-fourth street.
